

**YOUNG  
EPILEPSY  
SECTION**

## **EASTERN MEDITERRANEAN**

### **AIMS**

- Promote the education of young people interested in epileptology through participating in various workshops and educational activities.
- Enhance the multidisciplinary collaborations among young clinicians, basic scientists, and technicians across the Eastern Mediterranean Region.
- Improve the professional development of young people working with epilepsy.
- Raise public awareness of epilepsy in schools, workplaces & society to reduce epilepsy stigma.
- Improve networking and communication among young epileptologists across the globe.
- Facilitate the involvement of young people in ILAE-YES task forces, such as research, education, communication, congress and advocacy.
