

Dear colleagues,

Dear friends,

First of all, I would like to thank the Chapters that gave me this opportunity to be in the list of candidates for one of the offices of the ILAE, cooperating with our new President Emilio Perucca in establishing a successful Program to improve the care of epilepsy worldwide.

I'm a specialist in Neurology, Neuropediatrics and Electrophysiology and presently Associate Professor of the Neurology Department of Universidade Federal de São Paulo in Brazil. In the beginnings of the 90's, after finishing my Post-Doctorate at the National Institutes of Health, Bethesda, USA under the mentorship of William Theodore, I joined my Brazilian colleagues and together we developed a program with the Ministry of Health establishing Centers of Excellence in the Treatment of Epilepsy in Public Universities. This pioneer program allowed an unprecedented rise in education, patient care and research in the field of epilepsy in my country. Nowadays, epilepsy is the area with the largest number of scientific publications and theses within Brazilian Neurology. Personally, I'm co-author of more than 100 peer-reviewed papers in epilepsy, many based upon PhD and doctoral theses written under my direction by young neurologists; and also of eight books written to support educational activities in the country. I was President of the Brazilian League against Epilepsy 1994-1996 and of the Brazilian Epilepsy Association from 2003-2006 through which since 2005 I have been serving the IBE as Vice-President of the Latin American Commission.

From 2005 - 2009, I served the ILAE as Chair of the Education Commission, in which apart from the global agenda I also represented the Lusophonic branch, with the challenge of developing an Educational Program for Portuguese speaking countries. This allowed for the establishment of closer relations between epileptologists from Brazil, Portugal, Mozambique, Angola and Cape Verde. Since 2007 the dream came true of promoting epilepsy education in Latin America by an annual Latin American Summer School on Epilepsy (LASSE). In 2013 I will share again with Esper Cavalheiro, its mastermind, the organization of its seventh edition. Presently, as a member of the ILAE Education Commission I was honored by the invitation of members of the Commission on Latin American Affairs for serving as the Chair of our Epilepsy Academy (ALADE), through which we motivate young students to whom we offer training fellowships of variable length in Latin American Epilepsy Centers.

Considering education as a major commitment I hope my experience will be useful for serving at the global ILAE level, mainly supporting networking for epilepsy in the developing world and implementing the educational agenda of our organization. I strongly believe that joining our hands, colleagues from developed and developing regions will improve epilepsy care and knowledge of all, and these are the main reasons for which I hope I can deserve your vote to be a member of the ILAE Executive Committee.

Sincerely,

Elza Márcia Yacubian

## BIOGRAPHICAL SKETCH

Provide the following information for the Senior/key personnel and other significant contributors in the order listed on Form Page 2.  
Follow this format for each person. **DO NOT EXCEED FOUR PAGES.**

NAME <b>YACUBIAN, Elza Márcia Targas</b>	POSITION TITLE <b>Neurologist/Epileptologist</b> <b>Universidade Federal de São Paulo (UNIFESP), São Paulo, SP, Brazil, Department of Neurology and Neurosurgery, Escola Paulista de Medicina/UNIFESP, São Paulo</b>		
EDUCATION/TRAINING (Begin with baccalaureate or other initial professional education, such as nursing, include postdoctoral training and residency training if applicable.)			
INSTITUTION AND LOCATION	DEGREE (if applicable)	MM/YY	FIELD OF STUDY
Faculdade de Medicina de São José do Rio Preto	MD	1976	Medicine
Faculdade de Medicina de São José do Rio Preto	Neurologist	1978	Neurology
Faculdade de Medicina da Universidade de São Paulo	Neuropediatrician and Electrophysiologist	1981	Neuropediatrics and EEG
Faculdade de Medicina da Universidade de São Paulo	Doctorate	1989	Neurology
National Institutes of Health, Bethesda, MD	Post-Doctorate	1991	Epilepsy

### A. Personal Statement.

I'm a specialist in Neurology, Neuropediatrics and Electrophysiology and presently Associate Professor of the Neurology Department of Universidade Federal de São Paulo in Brazil. In the beginnings of the 90's, after finishing my Post-Doctorate at the National Institutes of Health, Bethesda, USA under the mentorship of William Theodore, I joined my Brazilian colleagues and together we developed a program with the Ministry of Health establishing Centers of Excellence in the Treatment of Epilepsy in Public Universities. This pioneer program allowed an unprecedented rise in education, patient care and research in the field of epilepsy in my country. Nowadays, epilepsy is the area with the largest number of scientific publications and theses within Brazilian Neurology. Personally, I'm co-author of more than 100 peer-reviewed papers in epilepsy, many based upon PhD and doctoral theses written under my direction by young neurologists; and also of eight books written to support educational activities in the country. I was President of the Brazilian League against Epilepsy 1994-1996 and of the Brazilian Epilepsy Association from 2004-2008 through which since 2005 I have been serving the IBE as Vice-President of the Latin American Commission.

From 2005 - 2009, I served the ILAE as Chair of the Education Commission, in which apart from the global agenda I also represented the Lusophonic branch, with the challenge of developing an Educational Program for Portuguese speaking countries. This allowed for the establishment of closer relations between epileptologists from Brazil, Portugal, Mozambique, Angola and Cape Verde. Since 2007 the dream came true of promoting epilepsy education in Latin America by an annual Latin American Summer School on Epilepsy (LASSE). In 2013 I will share again with Esper Cavalheiro, its mastermind, the organization of its seventh edition. Presently, as a member of the ILAE Education Commission I was honored by the invitation of members of the Commission on Latin American Affairs for serving as the Chair of our Epilepsy Academy (ALADE), through which we motivate young students to whom we offer training fellowships of variable length in Latin American Epilepsy Centers.

## **B. Positions and Honors**

### **Positions and Employment**

1992-2000 Chief Epilepsy Program, Department of Neurology, Hospital das Clínicas, Faculdade de Medicina da Universidade de São Paulo, SP, Brazil

2000-present Chief Epilepsy Program, Department of Neurology and Neurosurgery, Hospital São Paulo, Universidade Federal de São Paulo, SP, Brazil

### **Other Experience and Professional Memberships**

1994-1996 President of the Liga Brasileira de Epilepsia

2003-2006 President of the Associação Brasileira de Epilepsia

2005-present Vice-President Latin American Commission of the International Bureau for Epilepsy

2005-2009 Chair, Commission on Education of the International League Against Epilepsy

2009-present Chair, SubCommission on Education, Latin American Commission on Epilepsy, ILAE

### **Honors**

2009 Certificate of Recognition, International League against Epilepsy- Chair of the Commission on Education 2005-2009

## **C. Selected Publications (peer-reviewed publications in the last five years)**

### **(In chronological order)**

Discovering More Juvenile Myoclonic Epilepsy Genes by a Consortium.

The goals of this study are to accelerate discovery of epilepsy causing genes for JME, their pathogenetic mechanisms and cures through an international “GENESS” consortium. This consortium includes various sites in the developing world which provide human genetic resources, such as many large families.

Role: Site Director (Brazil)
