

## ASEPA-EST VEEG Workshop, Bangkok, 13-15 July 2023

The Video-EEG workshop organized by the Epilepsy Society of Thailand (EST) with ILAE-AO Asian Epilepsy Academy (ASEPA) support, in conjunction with the 27<sup>th</sup> EST annual meeting, was successfully organized on 13-15 July 2023. The local organizing team was led by Dr Charcrin Nabangchang, Dr Kamornwan Katanyuwong and Dr Chusak Limotai. The international tutor team members were Dr Andrew Bleasel, Dr Chong Wong, Dr Michael Fong from Australia and Dr Kheng-Seang Lim from Malaysia. There were 80 participants with nearly half from neighbouring countries (Vietnam, Indonesia, Malaysia, Singapore, India and China). The course focused mainly on phase I assessment in epilepsy presurgical evaluation. Besides lectures, the highlight of the course is the tutorial-based format with small group discussion, allowing every participant to go through the history, semiology, EEG and imaging of the cases. Stereo-EEG was introduced briefly on the last day.

Report prepared by,

**Dr. Kheng-Seang Lim**

ILAE-AO Secretary

Faculty Member, ASEPA-EST VEEG Workshop, Bangkok

Tutor team of the ASEPA-EST VEEG Workshop

Faculty members and 80 participants from 7 countries

Small group tutorial-based format allowing participation of every member
