

## **Mongolian Epilepsy Society**

### 2021-2022 Report

#### **CHAPTER OFFICERS**

G.Tsagaankhuu

A.Tovuudorj

*Officer Election Date: June 2024*

#### **ACTIVITIES AND ACCOMPLISHMENTS**

The Government of Mongolia is undertaking the stage-by-stage activities in order to improve the medical aid for the patients with epilepsy by means of providing central hospitals of cities and rural areas, as well as the regional diagnostic centers with tools and equipment, approval of new regulations on the free allocation of certain antiepileptic drugs or at discounted rates, subsidized from the health insurance fund, and will further continue these support activities in cooperation with professional organizations. Based on these situations and to improve the diagnosis, treatment and health care of epilepsy, the Mongolian Epilepsy Society organized a series of trainings on epilepsy to advance the professional skills of Mongolian health care personnel by inviting both national professionals and renowned international experts. The Society also conducted a number of research surveys, and prepared and submitted several policy actions and documents to the Government.

#### **FUTURE PLANS FOR 2023**

Start epilepsy surgery treatment in Mongolia

#### **MEETINGS**

Annual Chapter meetings of Mongolian Epilepsy Society in Ulaanbaatar in 2021 and 2022
