**MEETINGS AND ACTIVITIES**

2021: We held a symposium and workshops:

- Seizure semiology (value and limitation)
- Autonomic epilepsy
- Intractable epilepsy
- Epilepsy in pregnancy
- Catamenial epilepsy
- Epilepsy with endocrinal disease

2022:

- Epilepsy syndromes
- Role of EEG in diagnosis and follow up
- Update on epilepsy drugs
- Epileptic encephalopathy
- Paroxysmal events mimic epilepsy
- Secondary epilepsy

In addition to these workshops, we have facilitated out-patient clinics in public hospitals followed by educational courses for junior and newly graduated doctors on epilepsy diagnosis and management. We have also made epilepsy awareness programs for high school students and teachers in Sanaa city on International Epilepsy Day.
