

14th European Epilepsy Congress 2022

14th European Epilepsy Congress 2022																		
	Saturday 9 July			Sunday 10 July				Monday 11 July				Tuesday 12 July			Wednesday 13 July			
08.00-08.30	Half-day Teaching Courses 08.00- 11.50	Full-day Teaching Course 08.00- 16.50	Patient Forum 09.15-13.30	EEC Forums 08.00-09.30	Morning Symposium 08.00-09.30	Teaching Sessions 08.00-09.30		EEC Forums 08.00-09.30	Morning Symposium 08.00-09.30	Teaching Sessions 08.00-09.30		ECE Forums 08.00-09.30	Teaching Sessions 08.00-09.30		ECE Forums 08.00-09.30	Teaching Sessions 08.00-09.30		
08.30-09.00						Award Symposia							Award Symposia					
09.00-09.30																		
09.30-10.00																		
10.00-10.30																		
10.30-11.00																		
11.00-11.30																		
11.30-12.00	Half-day Teaching Courses 13.00- 16.50			Break			ILAE YES Session 11.40-12.40	Break		ILAE YES Session 11.40-12.40		Break		ILAE YES Session 11.40-12.40	Break		ILAE YES Session 11.40- 12.40	
12.00-12.30				ILAE Europe - EAN Symposium 12.00-13.30	Platform Sessions 12.00-13.30		Platform Sessions 12.00-13.30		Half-day surgery symposium 12.00-13.30	Platform Sessions 12.00-13.30		Parallel Sessions 12.00-13.30						
12.30-13.00																		
13.00-13.30																		
13.30-14.00																		
14.00-14.30																		
14.30-15.00																		
15.00-15.30	Half-day Teaching Courses 13.00- 16.50		Parallel Sessions 14.30-16.00	Satellite Symposium 13.45-15.00			Lunch & Posters 13.30-15.00			Satellite Symposia 13.45-15.00		Lunch & Posters 13.30-15.00		Satellite Symposium 13.45-15.00		Lunch & Posters 13.30-15.00		Congress Highlights Session 13.30-14.30
14.30-15.00																		
15.00-15.30				Parallel Sessions 15.00-16.30			Neurobiology Symposium 14.30-16.00	Parallel Sessions 15.00-16.30			Parallel Sessions 15.00-16.30		Symposium of Excellence in Epileptology 15.00-16.30					
15.30-16.00																		
16.00-16.30																		
16.30-17.00				Break														
16.30-17.00				Satellite Symposia 16.30-18.00			Break			Break			Break					
17.00-17.30				Satellite Symposium 16.45-18.15						Parallel Sessions 16.45-18.15		Satellite Symposium 16.45-18.15	Parallel Sessions 16.45-18.15		Satellite Symposium 16.45-18.15			
17.30-18.00																		
18.00-18.30	Welcome Ceremony & Reception 18.00-20.00																	
18.30-19.00																		
19.00-19.30																		
19.30-20.00																		

Saturday 9 July 2022

	Room B	Room A	Room C	Room W	Room V	Room P	Room K	Room E	Room F	Room G	Room L	Room T	Room U								
08.00-08.30					Patient Forum	Full Day Teaching Course: Neuroimaging in epilepsy - what the clinician should know	Half Day Teaching Course: Is this a seizure? If not what is it?	Half Day Teaching Course: Classify this!	Half Day Teaching Course: Let's read EEGs together!	Half Day Teaching Course: What ASM to start with? When to stop?	Half Day Teaching Course: Status epilepticus	Half Day Teaching Course: Epilepsy surgery: learn from cases!	Half Day Teaching Course: Genetic testing: whom, when and what to test								
08.30-09.00																					
09.00-09.30																					
09.30-10.00																					
10.00-10.30																					
10.30-11.00																					
11.00-11.30																					
11.30-12.00																					
12.00-12.30																					
12.30-13.00																					
13.00-13.30																					
13.30-14.00																					
14.00-14.30																					
14.30-15.00	Parallel Session: Predict and monitor epilepsy after the first epileptic seizure: new tools from EEG and	Parallel Session: Update in hemispherotomy: chances, challenges, and perspectives	Parallel Session: Oxidative stress and reactive oxygen species in epilepsy	Parallel Session: How do we classify paediatric epilepsy syndromes in 2022? Diagnostic criteria and ILAE	Parallel Session: The spectrum of nursing care for people with epilepsy: contributions and opportunities in	Full Day Teaching Course: Neuroimaging in epilepsy - what the clinician should know	Half Day Teaching Course: Is this a seizure? If not what is it?	Half Day Teaching Course: Classify this!	Half Day Teaching Course: Let's read EEGs together!	Half Day Teaching Course: What ASM to start with? When to stop?	Half Day Teaching Course: Status epilepticus	Half Day Teaching Course: Epilepsy surgery: learn from cases!	Half Day Teaching Course: No response to first ASMs. What next?								
15.00-15.30																					
15.30-16.00																					
16.00-16.30					Satellite Symposium																
16.30-17.00																					
17.00-17.30																					
17.30-18.00																					
18.00-18.30	Welcome Ceremony																				
18.30-19.00																					
19.00-19.30	Welcome Reception																				
19.30-20.00																					

Adult Epileptology	Drug Therapy	Epilepsy Surgery	Nursing	Social Issues	Industry
Basic Science	Epidemiology	Genetics	Paediatric Epileptology	Status Epilepticus	
Clinical Neurophysiology	Epilepsy and Reproductive Health	Neuroimaging	Pandemic Response	Terminology and Classification	
Comorbidities	Epilepsy in special groups	Neurostimulation	Psychiatry & Neuropsychology	Other	

Sunday 10 July 2022

	Room B	Room A	Room C	Room W	Room X	Room V	Room K	ILAE YES				
08.00-08.30	EEC Forum: Personalising antiseizure treatment	EEC Forum: Epilepsy nursing: local to global connections	Teaching Session: VIREPA Basic & Advanced EEG	Teaching Session: Video session – paediatric cases	Morning Symposium							
08.30-09.00												
09.00-09.30						Award Symposium: Epilepsia Prize 2022 - Basic Science	Award Symposium: Epilepsia Open Prize 2022 - Clinical					
09.30-10.00	Chairs' Symposium: Precision medicine for patients with epilepsy – are we there yet?											
10.00-10.30												
10.30-11.00												
11.00-11.30												
11.30-12.00												
12.00-12.30	Platform Session: Adult Epileptology 1	Platform Session: Basic Science	Platform Session: Drug Therapy 1	Platform Session: Paediatric Epileptology 1	Platform Session: Clinical Neurophysiology 1	Platform Session: Epilepsy Surgery	Parallel Session: ILAE Europe - EAN Symposium: Neurology meets epileptology: hot topics 2022	ILAE YES Session				
12.30-13.00								Satellite Symposium				
13.00-13.30												
13.30-14.00												
14.00-14.30												
14.30-15.00	Parallel Session: Recent advances in mobile ultralong patient monitoring using wearable EEG and non-EEG sensors	Parallel Session: Grey matters in status epilepticus	Parallel Session: Targeted approach to neonatal seizures	Parallel Session: Neuroimaging-guided epilepsy surgery: from science-fiction to reality	Parallel Session: Walk on the wide side: established and emerging factors that contribute to variability in patient response to antiseizure	Parallel Session: Challenges and controversies of seizures and epilepsy after stroke	Parallel Session: Neurobiology Symposium: The tales of tau in epilepsy: on treatments, biomarkers and translation					
15.00-15.30												
15.30-16.00												
16.00-16.30												
16.30-17.00		Satellite Symposium										
17.00-17.30												
17.30-18.00												
18.00-18.30												

Adult Epileptology	Drug Therapy	Epilepsy Surgery	Nursing	Social Issues	Industry
Basic Science	Epidemiology	Genetics	Paediatric Epileptology	Status Epilepticus	
Clinical Neurophysiology	Epilepsy and Reproductive Health	Neuroimaging	Pandemic Response	Terminology and Classification	
Comorbidities	Epilepsy in special groups	Neurostimulation	Psychiatry & Neuropsychology	Other	

Monday 11 July 2022

	Room B	Room A	Room C	Room W	Room X	Room V	ILAE YES
08.00-08.30	EEC Forum: SUDEP - an uncomfortable but necessary discussion	EEC Forum: Climate change and epilepsy: what to know and what to do?	Teaching Session: Epileptic encephalopathies	Teaching Session: Advanced EEG: source imaging – part 1 (Theory)	Morning Symposium		
08.30-09.00							
09.00-09.30							
09.30-10.00	Main Session: Future therapies for epilepsy	Main Session: Is it possible to predict outcome in childhood epilepsies?				Half-day surgery symposium	
10.00-10.30							
10.30-11.00							
11.00-11.30							
11.30-12.00							
12.00-12.30	Platform Session: Adult Epileptology 2	Platform Session: Drug Therapy 2	Platform Session: Paediatric Epileptology 2	Platform Session: Neuroimaging	Platform Session: Genetics	Half-day surgery symposium	ILAE YES Session
12.30-13.00							
13.00-13.30							
13.30-14.00		Satellite Symposium	Satellite Symposium				
14.00-14.30							
14.30-15.00							
15.00-15.30	Parallel Session: EEG and artificial intelligence: towards novel prognostic biomarkers in epilepsy	Parallel Session: Super-refractory Status Epilepticus – moving forward	Parallel Session: What is new in epilepsy surgery?	Parallel Session: Advances in neurotechnology of virtual brain modelling and neuromodulation	Parallel Session: Safety first – how to use registries for improved treatment with ASMs and patient care	Parallel Session: Needs and priorities in epilepsy care across ages	
15.30-16.00							
16.00-16.30							
16.30-17.00				Satellite Symposium	Parallel Session: The GABA wave 35 years on: the lessons from GABAergic drugs for future drug development	Parallel Session: Scalp high frequency oscillations (HFO) as a novel noninvasive diagnostic to improve epilepsy surgery	
17.00-17.30							
17.30-18.00							
18.00-18.30							

Adult Epileptology	Drug Therapy	Epilepsy Surgery	Nursing	Social Issues	Industry
Basic Science	Epidemiology	Genetics	Paediatric Epileptology	Status Epilepticus	
Clinical Neurophysiology	Epilepsy and Reproductive Health	Neuroimaging	Pandemic Response	Terminology and Classification	
Comorbidities	Epilepsy in special groups	Neurostimulation	Psychiatry & Neuropsychology	Other	

Tuesday 12 July 2022

	Room B	Room A	Room C	Room W	Room X	Room V	ILAE YES
08.00-08.30	EEC Forum:	EEC Forum:					
08.30-09.00	Real-time processing of brain biosignals; applied to epileptiform discharges, behavior, and cognition	Psychiatric comorbidities in persons with epilepsy: update on guidelines and recommendations	Teaching Session: Immunity, inflammation and epilepsy	Teaching Session: Advanced EEG: source imaging – part 2 (Hands-on)			
09.00-09.30					Award Symposium: Epilepsia Prize 2022 - Clinical	Award Symposium: Epileptic Disorders Prize 2022	
09.30-10.00							
10.00-10.30	Main Session: Novel approaches to drug discovery	Main Session: How to deal with multiple failed epilepsy surgeries?					
10.30-11.00							
11.00-11.30							
11.30-12.00							
12.00-12.30	Platform Session: Adult Epileptology 3	Platform Session: Clinical Neurophysiology 2	Platform Session: Status Epilepticus	Platform Session: Epidemiology	Platform Session: Neurostimulation		ILAE YES Session
12.30-13.00							
13.00-13.30							
13.30-14.00							
14.00-14.30	Satellite Symposium						
14.30-15.00							
15.00-15.30		Parallel Session: Outcome measures in persons with intellectual disability, epilepsy, and behavioural concerns: how lived experiences can change our perspectives	Parallel Session: Use of radio-frequency and laser techniques for epilepsy surgery				
15.30-16.00							
16.00-16.30							
16.30-17.00				Satellite Symposium	Parallel Session: Advances in epilepsy surgery: preventing seizures, maintaining cognition	Parallel Session: Clinical neurophysiology for coma prognostication after cardiac arrest	
17.00-17.30							
17.30-18.00							
18.00-18.30							

Adult Epileptology	Drug Therapy	Epilepsy Surgery	Nursing	Social Issues	Industry
Basic Science	Epidemiology	Genetics	Paediatric Epileptology	Status Epilepticus	
Clinical Neurophysiology	Epilepsy and Reproductive Health	Neuroimaging	Pandemic Response	Terminology and Classification	
Comorbidities	Epilepsy in special groups	Neurostimulation	Psychiatry & Neuropsychology	Other	

Wednesday 13 July 2022

	Room B	Room A	Room C	Room W	Room X	Room V	ILAE YES
08.00-08.30	EEC Forum: From cell to biomarker – renaissance of EEG?	EEC Forum: Systematic reviews and meta-analyses in epilepsy: an interactive workshop on how to interpret and use them in clinical practice	EEC Forum: Rare and complex epilepsies in 2030 and the role of ERN EpiCARE	Teaching Session: VIREPA Paediatric EEG & VIREPA MRI	Teaching Session: Video session – adult patients	EEC Forum: Epilepsy and employment - limitations and solutions	
08.30-09.00							
09.00-09.30							
09.30-10.00	Main Session: Neurodegeneration and epilepsy	Main Session: IGAP					
10.00-10.30			EEC Forum: Evolution of trial designs to improve treatment availability for infants: a regulatory opportunity/challenge	EEC Forum: Minimally invasive epilepsy surgery	EEC Forum: Reproductive hormones and epilepsy		
10.30-11.00							
11.00-11.30							
11.30-12.00							
12.00-12.30	Parallel Session: Is seizure semiology still useful for understanding the aetiology?	Parallel Session: Deep brain stimulation in epilepsy: rationale, current research and future concepts	Platform Session: Psychiatry & Neuropsychology	Parallel Session: Stroke and epilepsy – new insights	Parallel Session: Seizure forecasting with non-invasive technologies: opportunities for clinical applications	Parallel Session: Opening to new therapeutic targets in epilepsy: sleep and orexin	ILAE YES Session
12.30-13.00							
13.00-13.30							
13.30-14.00	Congress Highlights Session						
14.00-14.30							
14.30-15.00							
15.00-15.30							
15.30-16.00							
16.00-16.30							

Adult Epileptology	Drug Therapy	Epilepsy Surgery	Nursing	Social Issues	Industry
Basic Science	Epidemiology	Genetics	Paediatric Epileptology	Status Epilepticus	
Clinical Neurophysiology	Epilepsy and Reproductive Health	Neuroimaging	Pandemic Response	Terminology and Classification	
Comorbidities	Epilepsy in special groups	Neurostimulation	Psychiatry & Neuropsychology	Other
