Task Force Aims/Goals

To train the next generation of ILAE leaders

Task Force Activities and Accomplishments

The Task Force conducts annual 1.5 day Leadership Development Programs, and has trained over 100 individuals since 2015. The most recent Leadership Development Program took place in Bangkok, Thailand in conjunction with the 33rd ILAE International Epilepsy Congress. While a regional Leadership Training Program was planned for 2020 at the ILAE-NA first regional Congress, this program was deferred due to the COVID-19 pandemic.

Recommendations for Future Work

The Task Force is currently adapting the in-person training format to a virtual format. We anticipate that the next Leadership Training Program will take place virtually at the 34th ILAE International Congress to be held in August 2021.
