Highlights

The last task of the 2017 - 2021 Budget Review Task Force was to review the 2021 budgets. This occurred at the end of 2020. We used the same process as we had for the previous year. Members were provided with the topical commission and task force's proposed budgets and information for the activities they planned to fund. We independently reviewed the data provided and scored each activity. The scores were collated and then activities where there was a wide variation in the scores were discussed at a Zoom meeting. The final scores were submitted to the ILAE finance committee for use in their 2021 budget deliberations.

I would like to thank the members of the Budget Review Task Force for their work over the term. I would also like to thank Donna Cunard for all of her guidance, help and support.
