32ND INTERNATIONAL EPILEPSY CONGRESS

WELCOME MESSAGE FROM THE ORGANISING COMMITTEE

Dear Friends and Colleagues,

On behalf of the Organising Committee, it is our pleasure to welcome you to the 32nd International Epilepsy Congress (IEC) in Barcelona, September 2nd – 6th, 2017. This congress is organised jointly by the International League Against Epilepsy (ILAE) and the International Bureau for Epilepsy (IBE).

The International Epilepsy Congress is a major biennial event and a recognised landmark in the calendar of epilepsy specialists worldwide. The congress, which is held in the prestigious Palau de Congressos de Catalunya, gives delegates from all over the world the chance to come together with fellow researchers, clinicians and health care practitioners. The scientific programme is highly engaging, with a wide range of main and parallel sessions, as well as teaching sessions, debates, multidisciplinary conferences and video sessions.

Barcelona is one of the top cities in Europe and the world in terms of hosting international conferences. Visiting the different corners of Barcelona is an authentic journey through time – over 2000 years of history, with Roman ruins, Gothic treasures and surprises from the Renaissance age. The creative flair of Picasso, Miró, Dalí, Gaudí and Tàpies is very much part of the city today and this is reflected in the buildings, exhibitions, and the design and art that are found in the most unexpected places. The city's character is truly Mediterranean, with a cosmopolitan and dynamic spirit and we hope you get to enjoy some of what the city has to offer while you are here.

We look forward to meeting you all in this wonderful city.

With warm regards,

Emilio Perucca, Athanasios Covanis & Antonio Russi

Co-chairs of the 32nd IEC Scientific and Organising Committee

www.epilepsybarcelona2017.org

GENERAL INFORMATION

WELCOME MESSAGE FROM BARCELONA CONVENTION BUREAU

Dear attendees,

It is a great pleasure for the City of Barcelona and the Barcelona Convention Bureau to welcome the 32nd International Epilepsy Congress and its delegates.

Barcelona has become one of the most attractive and trendy destinations in Europe both for professional, travel and leisure and has a long tradition in hosting international meetings.

My team and I wish you a successful congress and we do hope that you will find time to enjoy our wonderful city, its culture and gastronomy.

Mr. Christoph Tessmar

Director

Barcelona Convention Bureau

BarcelonaTurisme
Convention Bureau

CERTIFICATES OF ATTENDANCE

Certificates of Attendance may be collected from the Registration Area from Monday 4th September onwards during registration opening hours.

CLOAKROOM

The cloakroom is located on Level -1 of the congress centre. The cloakroom is free of charge for congress participants. Opening times can be found in the Facilities Timetable Overview.

www.epilepsybarcelona2017.org

GENERAL INFORMATION

CME ACCREDITATION

The 32nd International Epilepsy Congress is accredited by the European Accreditation Council for Continuing Medical Education (EACCME) to provide the following CME activity for medical specialists. The EACCME is an institution of the European Union of Medical Specialists (UEMS), www.uems.net.

The 32nd International Epilepsy Congress is designated for a maximum of 24 hours of European external CME credits. Each medical specialist should claim only those hours of credit that he/she actually spent in the educational activity.

Through an agreement between the European Union of Medical Specialists and the American Medical Association, physicians may convert EACCME credits to an equivalent number of AMA PRA Category 1 Credits™. Information on the process to convert EACCME credit to AMA credit can be found at www.ama-assn.org/go/internationalcme.

Live educational activities, occurring outside of Canada, recognized by the UEMS-EACCME for ECMEC credits are deemed to be Accredited Group Learning Activities (Section 1) as defined by the Maintenance of Certification Program of The Royal College of Physicians and Surgeons of Canada.

CONGRESS APP

A free congress app “IEC 2017” is available for Apple, Windows and Android devices.

A session planner can be downloaded from the app, which will provide access to all scientific sessions information such as date, times and content. This planner will also assist delegates with the planning of their schedules.

COFFEE BREAKS

Morning Coffee Breaks will be served Sunday to Wednesday in the Exhibition Area, on the Level 0 of the convention centre. Lunches will also be served Sunday to Tuesday in the Exhibition Area.

32ND INTERNATIONAL EPILEPSY CONGRESS

CONGRESS BAGS

Congress bags may be collected from the Registration Area located on the Level 0 of the congress centre.

CONGRESS SECRETARIAT

Members of the Congress Secretariat may be contacted at any time at the Registration Area. For queries arising after the congress, please contact:

Tel: +353 1 2056720 | Email: barcelona@epilepsycongress.org

EXHIBITION AREA

The Exhibition Area is situated on the Level 0 of the Palau de Congressos de Catalunya. Exhibition opening times are listed in the Facilities Timetable Overview.

IBE GENERAL ASSEMBLY

The IBE General Assembly will take place on Tuesday 6th September from 15:30 to 18:30 in Room E3/E4/E5 on Level -1.

The IBE General Assembly is open to IBE Chapter representatives only and all representatives are invited to attend. Some refreshments will be provided.

ILAE GENERAL ASSEMBLY & CHAPTER CONVENTION

The ILAE General Assembly will take place on Tuesday 6th September from 16:30 to 17:30 in Room F on Level - 1. The ILAE General Assembly is open to ILAE Chapter representatives only and all representatives are invited to attend.

The ILAE Chapter Convention will take place on Saturday 2nd September from 10:00 to 13:00 on Level -1. The ILAE Chapter Convention is open to invited representatives only.

INTERNET CENTRE

The Internet Centre is situated on Level -1 of the congress centre.

www.epilepsybarcelona2017.org

GENERAL INFORMATION

LANGUAGE

The official language of the congress is English; please note that translation facilities are not provided.

LIABILITY AND INSURANCE

The International League Against Epilepsy (ILAE) and the International Bureau for Epilepsy (IBE) and their agents do not accept any liability whatsoever for death, personal injury, accidents, theft, loss or damage to persons, property or belongings of participants or accompanying persons, either before, during or following the congress, tours or their stay in Barcelona. It is therefore recommended that participants arrange their own personal health, accident and travel insurance.

POSTERS

Posters are exhibited in the Poster Area located on Level -1 of the congress centre. Posters are on display from 10:30 to 17:30, Sunday to Tuesday, with different posters presented each day. Poster presenters are required to set up their posters between 09:30 and 10:30 each morning. Posters must be removed each evening between 17:30 and 18:30.

REGISTRATION

The Registration Area is located on the Level 0 of the congress centre. Please note that name badges must be worn at all times.

SPEAKERS' ROOM

The Speakers' Room is located on Level -1 of the main congress building. Opening times are listed on the Facilities Timetable Overview. Facilities to review and amend presentations are available to all speakers and technical assistance will also be provided in this room.

Please note that all speakers should submit their final PowerPoint presentation(s) to the Speakers' Room no less than 3 hours in advance of their session. Speakers at early morning sessions are required to submit their material no later than 17:00 on the evening before their session is scheduled.

32ND INTERNATIONAL EPILEPSY CONGRESS

WELCOME CEREMONY AND RECEPTION

All delegates are invited to attend the Welcome Ceremony which takes place from 19.00 to 20.00 on Saturday 2nd September in the Congress Hall. The ceremony will open with welcomes from ILAE and IBE representatives as well as the congress committee. This will be followed by the Awards Ceremony, which will consist of the presentations of the Ambassador for Epilepsy Awards, the Social Accomplishment Award and the Lifetime Achievement Award. The three following awards will also be acknowledged during the ceremony, and their presentations will take place during the Award Symposium each day, Saturday to Tuesday: Michael Prize, The Epilepsia Clinical Science Prize, The Epilepsia Basic Science Prize and the Epileptic Disorder Award.

All delegates are invited to join a Welcome Reception which will be held on the grounds in the Garden Restaurant.

WHEELCHAIR ACCESS

The congress centre is wheelchair accessible and assistance will be provided onsite to any wheelchair user.

WIFI

Free WIFI is available in the venue for the duration of the congress to registered delegates.

GENERAL INFORMATION

BARCELONA TRANSPORT INFORMATION

Barcelona is a large city, but the modern and extensive public transport system allows you to get anywhere within the city in no time. Metro, buses and trams run very frequently until late at night. In addition to this, there are several cable cars, funiculars, railways, taxis, local trains, night buses and other transport systems.

Getting to Barcelona city from the airport:

- Metro: L9 Sud
- Express bus: Aerobus
- Conventional bus: number 46
- Night buses: Nit Bus

Getting around Barcelona:

Barcelona and its metropolitan area have a wide range of public transport options.

Metro, tram and bus are the quickest, simplest and most convenient way of getting around Barcelona.

GENERAL INFORMATION

AWARDS

Congress Awards

The IBE/ILAE congress awards are presented biennially at the time of the International Epilepsy Congress, to honour individuals who have made significant contributions, over a long period of time and at international level, in the field of epilepsy. There are three categories: Ambassador for Epilepsy – presented to a maximum of 13 recipients; Social Accomplishment, presented to one individual; and the highest honour, Lifetime Achievement Award which, as its name implies, recognises a lifetime of achievement of an individual.

Lifetime Achievement Award

This is the highest award bestowed by IBE/ILAE and is given to an individual to recognise his or her exceptional and outstanding personal contribution over a long period of time to activities to advance the cause of epilepsy.

Presented to: Charlotte Dravet (France)

Although especially known for the epilepsy syndrome that bears her name, Prof Dravet made impressive contributions to our understanding of the clinical and electrophysiological correlates of epilepsy syndromes of childhood. Her textbook *Epileptic Syndromes in Infancy, Childhood and Adolescence*, which she co-edited, has been updated many times over two decades and represents, to this day, a reference book for both students and epileptologists alike. She has mentored many trainees who have later become leading epileptologists, particularly in Europe and Latin America.

In addition to her clinical expertise and research achievements, Prof Dravet is known worldwide for her humble attitude, tireless work and dedication to the epilepsy mission, including her support to the many lay associations, some made up of families of children with Dravet syndrome, which advocate for better care for children with epilepsy. She has produced many publications for the lay community, particularly parents of children with epilepsy, to help them cope with aspects of the disease.

Social Accomplishment Award

Every two years, one person who has carried out outstanding activities aimed at improving the social circumstances of people with epilepsy, over a long period of time, is recognised.

32ND INTERNATIONAL EPILEPSY CONGRESS

Presented to: Susan Axelrod (USA)

In 1998, Axelrod and two other mothers, frustrated with their inability to protect their children from the devastation of seizures and side effects of medications, spearheaded the search for a cure for epilepsy. Axelrod launched a nonprofit organization that has established a national and international presence in epilepsy awareness and research.

Under Axelrod's leadership, CURE has led a dramatic shift in the epilepsy research community from simply treating seizures to enhancing understanding of underlying mechanisms and causes, so that cures and preventative strategies can be found. CURE's research program is cutting-edge, dynamic and responsive to new scientific opportunities and directions through both investigator-initiated grants and unprecedented scientific programs and initiatives and the exploration of new areas in the quest to find answers. CURE has also funded landmark conferences, including the 2000 National Institutes of Health (NIH) Conference, Curing Epilepsy: Focus on the Future.

Ambassador for Epilepsy Award

The Ambassador for Epilepsy Award is the oldest IBE/ILAE award, having been introduced in 1968. To date, a total of 312 worthy recipients have received an Ambassador pin to reflect international peer recognition and which is given for the lifetime of the recipient. Thirteen Ambassadors will be presented with their awards in Barcelona.

Michel Baulac (France)
Giuseppe Capovilla (Italy)
Nathalie Jetté (Canada)
Jaideep Kapur (USA)
Astrid Nehlig (France)
Terence O'Brien (Australia)
Makiko Osawa (Japan)

Galo Pesantez Cuesta (Ecuador)
Parthasarthy Satishchandra (India)
Ivan Rektor (Czech Republic)
Eugen Trink (Austria)
Samuel Wiebe (Canada)
Sameer Zuberi (United Kingdom)

Presentation of Awards

The Ambassador for Epilepsy Awards, together with the Social Accomplishment and Lifetime Achievement Awards will be presented to these most deserving recipients during the Welcome Ceremony of the congress in Barcelona on Saturday 2nd September 2017.

www.epilepsybarcelona2017.org

GENERAL INFORMATION

AWARDS

Epilepsia Clinical Science Prize

The Epilepsia Clinical Science Prize is awarded to the first author of an original research article published in *Epilepsia* during the period from 1st January to 31st December in any one calendar year which, in the opinion of the Awards Committee, has contributed to the most significant advancement of knowledge and understanding in clinical science in the field of epilepsy.

Recipient: Sarah Weckhuysen (Belgium)

The Award will be acknowledged during the Welcome Ceremony on Saturday 2nd September, and the winning paper will be presented during the Awards Symposium on Sunday 3rd September from 15:00 to 15:30 in Room F.

Epilepsia Basic Science Prize

The Epilepsia Basic Science Prize is awarded to the first author of an original research article published in *Epilepsia* during the period from 1st January to 31st December in any one calendar year which, in the opinion of the Awards Committee, has contributed to the most significant advancement of knowledge and understanding in basic science in the field of epilepsy.

Recipient: Tiwalade Sobayo (USA)

The Award will be acknowledged during the Welcome Ceremony on Saturday 2nd September, and the winning paper will be presented during the Awards Symposium on Monday 4th September from 15:00 to 15:30 in Room F.

Epileptic Disorders Educational Prize

The Epileptic Disorders Educational Prize is awarded to the first author of a contribution published in *Epileptic Disorders* during the period from 1st January to 31st December in any one calendar year, which in the opinion of the Awards Committee has made the most significant contribution to the educational mission of *Epileptic Disorders*. Papers are nominated by the Associate Editors and members of the Editorial Board, and the final selection is made by the Editor in Chief along with the ILAE President.

32ND INTERNATIONAL EPILEPSY CONGRESS

Recipient: Hiroko Ikeda (Japan)

The Award will be acknowledged during the Welcome Ceremony on Saturday 2nd September, and the winning paper will be presented during the Awards Symposium on Tuesday 5th September from 15:00 to 15:30 in Room F.

Michael Prize

Presented biennially, this prize was originally set up in 1963 to stimulate epilepsy research among young scientists in Germany. It is now one of the most highly regarded international awards for the best contribution to scientific and clinical research which promote further development in epileptology.

Recipient: Boris Christian Bernhardt (Canada)

The Award will be acknowledged during the Welcome Ceremony on Saturday 2nd September and the winning paper will be presented during the Awards Symposium on Saturday 2nd September, from 14:30 to 15:00 in Room H1.

Harinarayan Young Neuroscientist Award

The Harinarayan Young Neuroscientist Award is designed to encourage and reward young (under 35 years of age) basic science investigators committed to epilepsy research. This new award, issued in 2017, is endowed by the ILAE Neurobiology Commission and is generously supported by a donation from the Harinarayan Family.

More information in relation to the Harinarayan Young Neuroscientist Award will be available during the congress. Awardees will be acknowledged during the Welcome Ceremony on the 2nd September, 19:00-20:00. Awardees will be presented during the Neurobiology Symposium which will take place on Sunday 3rd September, 12:00-14:00 in Room J.

www.epilepsybarcelona2017.org

SCIENTIFIC PROGRAMME INFORMATION

SCIENTIFIC PROGRAMME DETAILS

Presidential Symposium

The high profile symposium has been meticulously constructed by the Presidents of ILAE and IBE. This session will cover the classification of seizures and epilepsy.

Main and Parallel Sessions

Some of the topics of the Main and Parallel Sessions originated/were selected from the numerous proposals submitted by ILAE Chapters and Commissions and IBE Regional Committees. Main sessions feature topics such as novel technologies, stress as a key factor in epilepsy and co-morbidities, precision medicine, epileptic encephalopathies and understanding the nature of seizures.

The Parallel Sessions ensure a comprehensive selection of dynamic topics delivered by experts from world leading epilepsy institutions.

Debates

The debate sessions will present, in a lively and stimulating format, opposing views about controversial topics.

Video Sessions

There will be three video sessions in the main programme focussing on the practical implementation of the new ILAE classification and the EpilepsyDiagnosis.Org diagnostic website.

Ask the Experts

A new addition to the scientific programme is the 'Ask the Experts' sessions. These will take place over three days and cover the following topics; Classification, Women's' Issues and Managing difficult cases of epilepsy in childhood.

WONOE Highlights

The WONOE workshop, which traditionally takes place in the days before the International Epilepsy Congress, is a unique opportunity for basic scientists

32ND INTERNATIONAL EPILEPSY CONGRESS

and clinicians to get together and appraise the latest developments in translational science. A special session at the beginning of the congress will provide delegates with highlights of the most significant points emerged during the 2017 WONOE.

Teaching Programme

The extensive teaching programme will offer three to six daily early morning interactive sessions covering many practical aspects of epilepsy diagnosis and management.

Five ILAE/VIREPA sessions will be devoted to EEG (basic, advanced and paediatric) and to current web-based ILAE educational activities.

Case-oriented sessions will discuss practical issues of psychiatric and non-psychiatric comorbidities, epileptic encephalopathies, adult and paediatric epilepsy surgery, genetic and/or autoimmune aspects, the role of diets in epilepsy and the diagnosis and management of epilepsy in resource-limited settings.

Two special sessions will deal with epilepsy and the internet and with the dos and don'ts of participation in drug studies

Video sessions will cover neonatal and paediatric seizures and semiology and the differential diagnosis of epileptic seizures, sleep disorders and motor disorders. A special session will deal with the testing of patients during seizures.

EEG Technicians Course

There will be two practical sessions, aimed specially at EEG technicians, focussing on optimising recording techniques for standard EEG, special studies and long term EEG and Video-monitoring in epilepsy.

Congress highlights

Another popular session of the 31st International Epilepsy Congress was the 'Highlights' session. As a result this concluding session will be included in Barcelona to provide delegates with an overview of the most important, original and interesting findings, presented throughout the congress programme.

www.epilepsybarcelona2017.org

SCIENTIFIC PROGRAMME INFORMATION

ABSTRACTS

The Scientific and Organising Committee would like to thank all of those who submitted an abstract for review for the 32nd International Epilepsy Congress. Almost 1,200 abstracts were received in 20 categories.

Abstracts may be viewed online on the congress website:
www.epilepsybarcelona2017.org.

The Scientific and Organising Committee would also like to thank those who participated in the abstract review process.

Platform Sessions

92 abstracts were selected for platform presentation in 19 sessions.

Posters

Posters are on display from 10:30 to 17:30, with different posters presented each day (Sunday to Tuesday). See page 104 for full details about posters.

Poster Tours

Guided poster tours, led by a prestigious roster of experts in the field, will take place during the congress. See page 99 for full details about poster tours.

BURSARIES

In order to encourage young investigators to participate in the 32nd IEC, a total of 104 bursaries were awarded by ILAE and IBE to assist with registration and/or travel and/or accommodation. 77 bursaries were awarded by the ILAE and 27 by the IBE.

32ND INTERNATIONAL EPILEPSY CONGRESS

ILAE Bursary Recipients

Hai Xue (China)
Nuria Campora (Argentina)
Ying Xu (Australia)
Caroline Neuray (Austria)
Marina Coelho Gonsales (Brazil)

Session topics:		
Pediatrics	Translational	Integrated pathophysiology/clinical/social
Clinical	Social Issues	Management issues (medical or surgical)

SCIENTIFIC PROGRAMME INFORMATION

SATURDAY 2nd SEPTEMBER

	CONGRESS HALL	ROOM A	ROOM F
13.00-13.30		WONOEP Highlights	VIREPA COURSE - EEG Basic/Advanced
13.30-14.00			
14.00-14.30			
14.30-15.00			
15.00-15.30			
15.30-16.00		Satellite Symposium	Satellite Symposium
16.00-16.30			
16.30-17.00			
17.00-17.30	Network Imaging in epilepsy	The epilepsy autism conundrum	Advances in research in PME of Lafora: searching for a cure
17.30-18.00			
18.00-18.30			
18.30-19.00			
19.00-19.30	Welcome Ceremony		
19.30-20.00			
20.00-20.30	Welcome Reception (Garden Restaurant)		
20.30-21.00			

32ND INTERNATIONAL EPILEPSY CONGRESS

ROOM H1	ROOM H2	ROOM J
CASE-ORIENTED SERIES - Non Psychiatric Comorbidities		VIDEO SERIES - Nocturnal events: epilepsy/parasomnia
Michael Prize Symposium		
Stronger together - advocating together for research, comprehensive care and involvement of patients with epilepsy		MicroRNA in epilepsy

SCIENTIFIC PROGRAMME INFORMATION

SATURDAY 2nd SEPTEMBER

Teaching Session
Room A

13:00 – 14:30

VIREPA Course

EEG-Basic
Bogdan Lorber (Slovenia)

EEG-Advanced
Michaelis Koutroumanidis (United Kingdom)

Teaching Session
Room H1

13:00 – 14:30

Case Oriented Series

Non-psychiatric comorbidities
Martin Brodie (United Kingdom)

Non-psychiatric comorbidities
Alla Guekht, (Russia)

Teaching Session
Room J

13:00 – 14:30

Video Series

Nocturnal events: epilepsy/parasomnia
Al de Weerd (Netherlands)

Nocturnal events: epilepsy/parasomnia
Sándor Beniczky (Denmark)

32ND INTERNATIONAL EPILEPSY CONGRESS

Award Symposium

Room H1

14:30 – 15:00

Michael Prize Symposium

Co-chairs: Helen Cross (United Kingdom) & Emilio Perucca (Italy)

Neuroimaging and connectome analysis of temporal lobe epilepsy: from hippocampal subfields to large-scale networks
Boris Christian Bernhardt (Canada)

Satellite Symposium

Room A

15:30 – 17:00

Please see page 78 for details

Satellite Symposium

Room F

15:30 – 17:00

Please see page 78 for details

Parallel Session

Congress Hall

17:00 – 18:30

Networking imaging in epilepsy

Co-chairs: Christophe Bernard (France) & Simon Keller (United Kingdom)

Electrical signatures of epileptic phenotypes

Liset M de la Prida (Spain)

Seizure dynamics: role of the connectome and hubs

Christophe Bernard (France)

Network alterations in epilepsy revealed by volumetric MRI

Simon Keller (United Kingdom)

Architecture and dynamics of structural networks in epilepsy: implications for personalised medicine

Leonardo Bonhila (USA)

www.epilepsybarcelona2017.org

SCIENTIFIC PROGRAMME INFORMATION

SATURDAY 2nd SEPTEMBER

Parallel Session

Room A

17:00 – 18:30

The epilepsy autism conundrum

Co-chairs: John Jacob (United Kingdom) & Stéphane Auvin (France)

Diagnostic challenges in children with epilepsy and Autistic Spectrum Disorder (ASD)?

Stéphane Auvin (France)

The shared genetics of epilepsy and ASD

Ingrid Scheffer (Australia)

Cortical dysfunction in epilepsy and ASD

John Jacob (United Kingdom)

Goals and recommended approaches in antileptic treatment for children with ASD

Lieven Lagae (Belgium)

Parallel Session

Room H1

17:00 – 18:30

Stronger together – advocating together for research, comprehensive care and involvement of patients with epilepsy

Co-chairs: Sari Tervonen (Finland) & Francesca Sofia (Italy)

Why do we need better communication and collaboration between professional and lay organisations?

Manjari Tripathi (India)

Common barriers to collaboration – how to establish a new culture of teamwork

Pierre Genton (France)

The 'inseparable' IBE and ILAE chapters in Finland – how was this achieved?

Reetta Kälviäinen (Finland)

32ND INTERNATIONAL EPILEPSY CONGRESS

Advocating for epilepsy and making change in social and health care policy

Brian Hayes, Member of the European Parliament (MEP)
(Ireland)

Parallel Session

Room F

17:00 – 18:30

Advances in research in PME of Lafora: searching for a cure

Co-Chairs: Jose Serratosa (Spain) & Antonio Delgado-Escueta (Spain)

Glycogen metabolism as the driving force of LD

Matthew Gentry (USA)

Reducing glycogen synthesis as a therapy for LD: genomic therapies

Berge Minassin (Canada)

Reducing glycogen synthesis as a therapy for LD: small molecules

Peter Roach (USA)

When can LD be treated during evolution?

Joan Guinovart (Spain)

Translation to the clinic

Antonio Delgado-Escueta (Spain)

Translation to the clinic

Jose Serratosa (Spain)

www.epilepsybarcelona2017.org

SCIENTIFIC PROGRAMME INFORMATION

SATURDAY 2nd SEPTEMBER

Parallel Session

Room J

17:00 – 18:30

MicroRNA in epilepsy

Co-chairs: Felix Rosenow (Germany) & David Henshall (Ireland)

Novel epilepsy-associated microRNAs

David Henshall (Ireland)

Genetic variants in microRNA and their target genes

Ayal Gussow (USA)

MicroRNA in biofluids as biomarkers of human epilepsy, seizures and status epilepticus

Felix Rosenow (Germany)

Disease modification and anti-epileptogenesis; therapeutic targeting of miR-146a and miR-134

Michele Simonato (Italy)

13TH EUROPEAN CONGRESS ON EPILEPTOLOGY

SUN 26TH - THURS 30TH
AUGUST 2018

www.epilepsyvienna2018.org

Vienna 

ILAE-CEA
COMMISSION ON EUROPEAN AFFAIRS

SCIENTIFIC PROGRAMME INFORMATION

SUNDAY 3rd SEPTEMBER

Teaching Session

Room A

08:00 – 09:30

VIREPA Course

Neuroimaging

Petr Marusic (Czech Republic)

New course formats: Neuroimaging

Stefan Rampp (Germany)

Teaching Session

Room H1

08:00 – 09:30

Case Oriented Series

Epileptic encephalopathies

Rima Nababout (France)

Teaching Session

Room H2

08:00 – 09:30

Miscellaneous Series

Advanced EEG

Maeike Zijlmans (Netherlands)

Advanced EEG

Sándor Beniczky (Denmark)

Satellite Symposium

Room F

08:00 – 09:30

Please see page 79 for details

32ND INTERNATIONAL EPILEPSY CONGRESS

Teaching Session

Room J

08:00 – 09:30

Video Series

Neonatal seizures/non-epileptic events

Monika Eisermann (France)

Neonatal seizures/non-epileptic events

Jo Wilmshurst (South Africa)

Presidential Symposium

Congress Hall

09:30 – 11:30

A new classification is born

Co-chairs: Emilio Perucca (Italy) & Athanasios Covanis (Greece)

Developing a classification of seizures and epilepsy: Lessons from history

Solomon L. Moshé- (USA)

The ILAE classification of seizures

Sameer Zuberi (United Kingdom)

The ILAE classification of the epilepsies

Ingrid Scheffer (Australia)

The new classification: cultural context and implications for people with epilepsy

Satish Jain (India)

Parallel Session

Congress Hall

12:00 – 13:30

Clinical approach to status epilepticus

Co-chairs: Simon Shorvon (United Kingdom) & Javier Salas-Puig (Spain)

Impact of the new definition and classification on clinical management

Eugen Trinka (Austria)

www.epilepsybarcelona2017.org

SCIENTIFIC PROGRAMME INFORMATION

SUNDAY 3rd SEPTEMBER

Rare causes of status epilepticus

CT Tan (Malaysia)

Neuroimaging of status epilepticus

Giada Giovannini (Italy)

New drug treatments of status epilepticus

Simon Shorvon (United Kingdom)

Parallel Session

Room A

12:00 – 13:30

Innovation in epilepsy surgery: keeping promises?

Co-chairs: Antonio Russi (Spain) & Rodrigo Rocamora (Spain)

Moving away from long-term video-EEG monitoring

Jean Gotman (Canada)

Using networks to delineate a focus

Fernando Cendes (Brazil) (Brazil)

High frequency oscillations for surgical decision making

Maeike Zijlmans (Netherlands)

Novel minimally invasive therapies

Gary Mathern (USA)

Parallel Session

Room H1

12:00 – 13:30

Management of epilepsy in resource-limited settings

Co-chairs: Gretchen Birbeck (Zambia) & Ali Asadi-Pooya (Iran, Islamic Republic of)

Management of epilepsy in resource-limited settings: the basic requirements

Boulenouar Mesraoua (Qatar)

Management of epilepsy in resource-limited settings: establishing an epilepsy surgery program

Ali Asadi-Pooya (Iran, Islamic Republic of)

32ND INTERNATIONAL EPILEPSY CONGRESS

Management of epilepsy in resource-limited settings: telemedicine

Victor Patterson (Nepal)

Management of epilepsy in resource-limited settings: epilepsy care guidelines

Gretchen Birbeck (Zambia)

Parallel Session

Room H2

12:00 – 13:30

Ketogenic therapies: state of the art

Co-chairs: Helen Cross (United Kingdom) & Roberto Caraballo (Argentina)

How does the ketogenic diet work?

Heung Dong Kim (Korea, Republic of)

What is the evidence for effectiveness in children?

Helen Cross (United Kingdom)

The ketogenic diet in metabolic inherited disorders

Pierangelo Veggiotti (Italy)

Diets for status epilepticus

Roberto Caraballo (Argentina)

Neurobiology Symposium

Room J

12:00 – 14:00

Understanding the complexity and networks of epilepsies and their comorbidities

Co-chairs: Marco de Curtis (Italy) & Norberto Garcia-Cairasco (Brazil)

The human brain and the search for networks and connectivity maps associated to the epilepsies and their comorbidities

Maxime Guye (France)

Neurogenesis and gene cascade linking epilepsy to depression and autism

Steve Danzer (USA)

www.epilepsybarcelona2017.org

SCIENTIFIC PROGRAMME INFORMATION

SUNDAY 3rd SEPTEMBER

Brain somatic mutation in mTOR and epileptogenesis

Hoon-Chul Kang (Korea, Republic of)

Etiology and cognitive impairment – networks as a therapeutic target to improve outcomes

Rodney Scott (United Kingdom)

Complexity and emergence in epileptogenic networks: clinical experimental and computational challenges and perspectives

Norberto Garcia-Cairasco (Brazil)

Award Symposium

Room F

15:00 – 15:30

Epilepsia Clinical Science Prize

Co-chairs: Dieter Schmidt (Germany) & Michael Sperling (USA)

Involvement of GATOR complex genes in familial focal epilepsies and focal cortical dysplasia

Stephanie Baulac (France)

Platform Session

Congress Hall

15:30 – 16:30

Paediatric Epilepsies 1

Co-chairs: Sameer Zuberi (United Kingdom) & Heung Dong Kim (Korea, Republic of)

0021

Aetiology and subcortical structure volume are associated with subsequent cognitive deficits in children following convulsive status epilepticus (CSE)

Kyle H Bennett (United Kingdom)

0022

Cannabidiol (CBD) reduces convulsive seizure frequency in Dravet syndrome: results of a multi-centre, randomised, double-blind, placebo-controlled trial (GWPCARE1)

J. Helen Cross (United Kingdom)

0023

Genetic and phenotypic heterogeneity suggest therapeutic implications in SCN2A-related disorders

Markus Wolff (Germany)

32ND INTERNATIONAL EPILEPSY CONGRESS

- 0024** **Neurodevelopmental outcomes in new-borns with neonatal seizures caused by rotavirus-associated leukoencephalopathy**
Kyung Yeon Lee (Korea, Republic of)
- 0025** **Electrical status epilepticus in sleep after thalamic injury: clinical and neuroimaging predictors in 26 children**
Bart van den Munckhof (Netherlands)

Platform Session

Room H1

15:30 – 16:30

Basic Sciences 1

Chair: Matthew Walker (United Kingdom)

- 0001** **Proresolving anti-inflammatory mechanisms are novel potential targets against epileptogenesis**
Federica Frigerio (Italy)
- 0002** **Novel drug-screening in “epileptic” zebrafish uncovers histone deacetylase (HDAC) 1 and 3 as a novel anticonvulsant target**
Kingsley Ibhazehiebo (Canada)
- 0003** **Anti-epileptogenic and epilepsy comorbidity modifying effects of a selective T-type Ca²⁺ channel antagonist, Z944, in the post-status epilepticus model of temporal lobe epilepsy**
Pablo M. Casillas-Espinosa (Australia)
- 0004** **Tackling epileptogenesis via the mGlu7 glutamate receptor**
Benoit Girard (France)
- 0005** **The NINDS/NIH Epilepsy Therapy Screening Program (ETSP)**
John H. Kehne (USA)

Platform Session

Room H2

15:30 – 16:30

Living with seizures/epilepsy 1

Co-chairs: Satish Jain (India) & Caroline Morton (Netherlands)

- 0016** **Behavioural and emotional comorbidity of acute seizures in young Kenyan children: a population-based study**
Symon M. Kariuki, Kenya

www.epilepsybarcelona2017.org

SCIENTIFIC PROGRAMME INFORMATION

SUNDAY 3rd SEPTEMBER

- 0017** **Parenting stress and perceived stigma in mothers of children with early onset epilepsy: a population-based study**
Colin Reilly (United Kingdom)
- 0018** **"Seizure monitoring on my App" A nursing approach in the implementation of a Seizure App. Perspectives from clinical practice**
Lone Olsen (Denmark)
- 0019** **An economic evaluation of a multi-component self-management intervention for adults with epilepsy (ZMILE study)**
Ben Wijnen (Netherlands)
- 0020** **Knowledge and attitudes towards epilepsy of parents in Mali**
Youssoufa Maiga, Mali

Platform Session

Room F

- 15:30 – 16:30 **Epilepsy Surgery 1**
Co-chairs: Frans Leijten (Netherlands) & Gary Mathern (USA)
- 0011** **Relationship between cortical resection and visual function after occipital lobe epilepsy surgery**
Chun Kee Chung (Korea, Republic of)
- 0012** **Focal epileptiform discharges detected by magnetoencephalography and simultaneous electroencephalography**
Lene Duez (Denmark)
- 0013** **Meaningful improvement in quality of life after temporal lobe epilepsy surgery: a prospective study with Brazilian patients**
Katia Lin (Brazil)
- 0014** **Feasibility and safety of repeat stereotactic radiofrequency thermocoagulation for recurrent gelastic seizure due to hypothalamic hamartoma**
Hiroshi Shirozu (Japan)
- 0015** **Stimulation induced seizures during extraoperative direct electrical cortical stimulation for cortical mapping**
Martha Spilioti (Greece)

32ND INTERNATIONAL EPILEPSY CONGRESS

Platform Session

Room J

15:30 – 16:30

Clinical Neurophysiology 1

Co-chairs: Jean Gotman (Canada) & Maeike Zijlmans (Netherlands)

0006

Spindle oscillations trigger rolandic discharges in benign childhood epilepsy

Shinobu Kohsaka (Japan)

0007

Responsiveness to a word-listening task in children with rolandic epilepsy: a magnetoencephalographic study

Kuriko Kagitani-Shimono (Japan)

0008

Association of default mode network (DMN) regions at absence seizure onset unconstrained by their frequency confinement

Sanjib Sinha (India)

0009

New hybrid micro-macroelectrodes to record fast-ripples in patients with drug-refractory epilepsy

Elodie Despouy (France)

0010

Electroencephalographic abnormalities in anti NMDAR encephalitis

Sophie Jeannin-Mayer (France)

Satellite Symposium

Room A

16:30 – 18:00

Please see page 79 for details

www.epilepsybarcelona2017.org

SCIENTIFIC PROGRAMME INFORMATION

SUNDAY 3rd SEPTEMBER

Debate

Room H1

17:00 – 18:00

Pacing ictal asystole?

Pacing ictal asystole? – PRO

Rainer Surges (Germany)

Pacing ictal asystole? – CON

Felix Rosenow (Germany)

Debate

Room H2

17:00 – 18:00

Will gene and cell therapy be clinically relevant for epilepsy?

Will gene and cell therapy be clinically relevant for epilepsy? – CON

Sam Wiebe (Canada)

Will gene and cell therapy be clinically relevant for epilepsy? – PRO

Jack Parent (USA)

Video Session

Room F

17:00 – 18:00

Seizures and epilepsies in adults

Seizures and epilepsies in adults

Jacqueline French (USA)

Seizures and epilepsies in adults

Sam Berkovic (Australia)

32ND INTERNATIONAL EPILEPSY CONGRESS

Ask the Experts

Room J

17:00 – 18:00

Classification

Classification

Ingrid Scheffer (Australia)

Classification

Sameer Zuberi (United Kingdom)

BASIC SCIENCE 2	DEBATE - Do the cognitive benefits of temporal lobe surgery outweigh the cognitive risks?		
		Satellite Symposium	

SCIENTIFIC PROGRAMME INFORMATION

MONDAY 4th SEPTEMBER

08:00 – 09:30

Teaching Session
Room A

VIREPA COURSE

EEG-Paediatric
Monika Eisermann (France)

Sleep and epilepsy
Al de Weerd (Netherlands)

08:00 – 09:30

Teaching Session
Room H1

Case Oriented Series

Surgical cases, adults
Çigdem Ozkara, Turkey

Surgical cases, adults
Antonio Gil-Nagel, (Spain)

08:00 – 09:30

Satellite Symposium
Room H2

Please see page 81 for details

08:00 – 09:30

Teaching Session
Room F

Miscellaneous Series

Epilepsy and intellectual disability: the clinical spectrum
Christian Brandt (Germany)

Genetic testing in epilepsy with intellectual disability: what and when?
Ingrid Scheffer (Australia)

32ND INTERNATIONAL EPILEPSY CONGRESS

Teaching Session

Room J

08:00 – 09:30

Video Series

Paediatric semiology: epileptic/non-epileptic

Dana Craiu (Romania)

Paediatric semiology: epileptic/non-epileptic

Lieven Lagae (Belgium)

Teaching Session

Press Room II

08:00 – 09:30

EEG Course

Interactive, hands-on teaching session on applying high-density EEG electrode arrays, rapid scanning of the electrode positions and testing patients during seizures

Sándor Beniczky (Denmark)

Christian Skaarup (Denmark)

Anders Bach Justesen (Denmark)

Main Session

Congress Hall

09:30 – 11:30

Novel technologies for epilepsy; opportunities and pitfalls

Chair: Philippe Ryvlin (Switzerland)

Novel technologies for epilepsy: an overview

Philippe Ryvlin (Switzerland)

Using technology to improve knowledge and skills

Nathalie Jetté (Canada)

Using technology to improve quality of care and safety

Gregory Krauss (USA)

www.epilepsybarcelona2017.org

SCIENTIFIC PROGRAMME INFORMATION

MONDAY 4th SEPTEMBER

Main Session

Room J

09:30 – 11:30

Stress: a key factor in epilepsy and co-morbidities

Co-chairs: Sheryl Haut (USA) & Terence O'Brien (Australia)

Stress, the hippocampus and epilepsy

Terence O'Brien (Australia)

The evolving interactions of stress, anxiety and depression in epilepsy

Markus Reuber (United Kingdom)

Prenatal and childhood stress: impact on epilepsy

Jolien van Campen (Netherlands)

Measuring and treating stress: how novel technologies are taking us forward

Sheryl Haut (USA)

Parallel Session

Congress Hall

12:00 – 13:30

Seizure detection in ambulatory patients

Co-chairs: Mark Cook (Australia) & Andreas Schulze-Bonhage (Germany)

Experience from invasive EEG-based seizure detection

Mark Cook (Australia)

Non-invasive EEG-based seizure detection

Andreas Schulze-Bonhage (Germany)

EKG-based seizure detection

Christoph Baumgartner (Austria)

Non-EEG, non-EKG-based nocturnal seizure detection

Frans Leijten (Netherlands)

32ND INTERNATIONAL EPILEPSY CONGRESS

Parallel Session

Room A

12:00 – 13:30

Myths in epilepsy and psychiatry: what is the evidence?

Co-chairs: Marco Mula (United Kingdom) & Jo Wilmshurst (South Africa)

Should psychiatric comorbidities prevent patients from having epilepsy surgery?

Byung-In Lee (Korea, Republic of)

Are psychostimulants contraindicated in children with epilepsy?

Jo Wilmshurst (South Africa)

Are psychogenic non-epileptic attacks less hazardous than epileptic seizures?

Kette Valente (Brazil)

Do AEDs increase suicidality in epilepsy?

Marco Mula (United Kingdom)

Parallel Session

Room H1

12:00 – 13:30

Rare and complex epilepsies: addressing the needs of PWE and their families

Co-chairs: Philip Gattone (USA) & Rima Nababout (France)

What are rare and complex epilepsies and why do we need special actions for them?

Alexis Arzimanoglou (France)

The rare epilepsies network of the Epilepsy Foundation of America

Philip Gattone (USA)

Supporting PWE with rare epilepsies: learning from successful initiatives: Dravet syndrome groups

Julian Isla (Spain)

www.epilepsybarcelona2017.org

SCIENTIFIC PROGRAMME INFORMATION

MONDAY 4th SEPTEMBER

Supporting PWE with rare epilepsies: learning from successful initiatives: progressive myoclonus epilepsies
Paavo Marikainen (Finland)

Parallel Session

Room F

12:00 – 13:30

Neonatal seizures: from bench to incubator

Co-chairs: Aristeia Galanopoulou (USA) Lucia Fusco (Italy)

Pathophysiology of neonatal seizures

Mathieu Milh (France)

This is a seizure, this is not: Mice pups

Aristeia Galanopoulou (USA)

This is a seizure, this is not: Human neonates

Lucia Fusco (Italy)

When, how and what to treat?

Akihisa Okumura (Japan)

Parallel Session

Room J

12:00 – 13:30

Autoimmunity and inflammation in epilepsy

Co-chairs: Annamaria Vezzani (Italy) & Sarosh Irani (United Kingdom)

Neuro inflammation and epilepsies

Annamaria Vezzani (Italy)

Autoimmune epilepsies

Sarosh Irani (United Kingdom)

Immunotherapies in epilepsy

Sean Pittock (USA)

32ND INTERNATIONAL EPILEPSY CONGRESS

Award Symposium

Room F

15:00 – 15:30

Epilepsia Basic Science Prize

Chair: Astrid Nehlig (France)

Should stimulation parameters be individualized to stop seizures: Evidence in support of the approach

Tiwalade Sobayo (USA)

Platform Session

Congress Hall

15:30 – 16:30

Drug Therapy

Co-chairs: Michel Baulac (France) & Alla Guekht (Russia)

0026

Cannabidiol (CBD) significantly reduces drop and total seizure frequency in Lennox-Gastaut syndrome (LGS): results of a dose-ranging, multi-centre, randomised, double-blind, placebo-controlled trial (GWPCARE3)

Sameer Zuberi (United Kingdom)

0027

Considering anti-epileptic drug withdrawal? A tool for individual prediction of seizure outcomes

Herm J Lamberink (Netherlands)

0028

Adjunctive everolimus in patients with treatment-refractory seizures associated with tuberous sclerosis complex (TSC): analysis of exposure-efficacy and exposure-safety relationships in the randomized, phase 3, EXIST-3 trial

Jacqueline French (USA)

0029

Symptomatic treatment of anti-GABA_BR and anti-LGI1 autoimmune epilepsy

Marienieke A.A.M. de Bruijn (Netherlands)

0030

Comparing the efficacy of sodium valproate and levetiracetam following initial lorazepam in generalized convulsive status epilepticus (GCSE) in elderly: a prospective randomized controlled study

Devavrat Nene (India)

www.epilepsybarcelona2017.org

SCIENTIFIC PROGRAMME INFORMATION

MONDAY 4th SEPTEMBER

Platform Session

Room A

15:30 – 16:30

Genetics 1

Co-chairs: Iscia Lopes-Cendes (Brazil) & Nicola Specchio (Italy)

0036

Precision therapy for epilepsy due to KCNT1 mutations: an order-randomised, double-blind, placebo-controlled cross-over trial of oral quinidine

Saul Mullen (Australia)

0037

The phenotypic spectrum of SCN8A mutations and treatment response

Katrine M Johannesen (Denmark)

0038

Genetic investigation of sudden unexpected death in epilepsy cohort by panel target resequencing

Pasquale Striano (Italy)

0039

KCNT1 pathogenic variants cause nocturnal frontal lobe epilepsy and malformation of cortical development

Guido Rubboli (Denmark)

0040

Aetiologies and cost-effectiveness of genomic testing in severe epilepsies of infancy: a population-based study

Katherine B Howell (Australia)

Platform Session

Room H1

15:30 – 16:30

Neuroimaging

Co-chairs: William Theodore (USA) & Bernhard Pohlmann-Eden (Canada)

0046

Functional connectivity of mPFC compensates episodic memory encoding network following medial temporal lobe resection

Chun Kee Chung (Korea, Republic of)

0047

Seizure control and hippocampal sclerosis are related to metabolic alterations in mesial temporal lobe epilepsy

Luciana Pimentel-Silva (Brazil)

32ND INTERNATIONAL EPILEPSY CONGRESS

- 0048** **EEG source connectivity to localize the seizure onset zone from clinical ictal EEG in refractory epilepsy patients**
Pieter van Mierlo (Belgium)
- 0049** **IntrAnat Electrodes: a free software to visualize SEEG data in patient referential and initiate group studies**
Lena Trebaul (France)
- 0050** **In-vivo imaging of activated NMDA receptor ion channels with the radioligand 18F-GE179**
Ali Vibholm (Denmark)

Platform Session

Room H2

15:30 – 16:30

Living with seizures/epilepsy 2

Co-chairs: Galo Pesantez Cuesta (Ecuador) & Shichuo Li (China)

- 0041** **The impact of physical attractiveness judgments on stigma of epilepsy**
Aleksandar Ristic, Serbia
- 0042** **Self-Management education for adults with poorly controlled epilepsy (SMILE-UK)**
Leone Ridsdale (United Kingdom)
- 0043** **New epilepsy guideline in Norway – available on net and as a free app**
Karl O. Nakken, Norway
- 0044** **Attitudes and experiences of medicinal cannabis use in epilepsy**
Lisa Todd (Australia)
- 0045** **Effects of a specialized inpatient treatment program on epilepsy related impairments of patients with epilepsy and intellectual disability as rated by relatives and carers**
Christian Brandt (Germany)

www.epilepsybarcelona2017.org

SCIENTIFIC PROGRAMME INFORMATION

MONDAY 4th SEPTEMBER

Platform Session

Room F

15:30 – 16:30

Epidemiology 1

Co-chairs: Jakob Christensen (Denmark) & Jorge Burneo (Canada)

0031

Familial mesial temporal lobe epilepsy and the borderland of déjà vu

Piero Perucca (Australia)

0032

Seizures and high-grade gliomas: a UK single centre retrospective analysis

Oliver Riley (United Kingdom) & Nicholas Allcroft (United Kingdom)

0033

Impact of seizures after thrombolysis for acute ischemic stroke: the ENCHANTED trial

Ying Xu (Australia)

0034

Circumstances of SUDEPs: a Swedish nationwide population-based study of 329 cases

Olafur Sveinsson (Sweden)

0035

Inter-ictal cardiac repolarization abnormalities in people with epilepsy

Nirmeen Kishk, Egypt

Parallel Session

Room J

15:30 – 17:00

Use of intracranial recordings in pre-surgical assessment: Is it worth it?

Co-chairs: Jose Serratosa (Spain) & Antonio Valentin (United Kingdom)

SEEG versus subdural electrodes

Antonio Gil-Nagel (Spain)

Can neuroimaging replace chronic intracranial recordings?

Mar Carreño (Spain)

The additional value of electrical stimulation

Gonzalo Alarcon (Qatar)

32ND INTERNATIONAL EPILEPSY CONGRESS

Risks and costs of chronic intracranial recordings
Beate Diehl (United Kingdom)

Video Session

Congress Hall

17:00 – 18:00

Seizures and epilepsies in children

Seizures and epilepsies in children
Ingrid Scheffer (Australia)

Seizures and epilepsies in children
Sameer Zuberi (United Kingdom)

Ask the Experts

Room A

17:00 – 18:00

Women's Issues

Women's Issues
Jacqueline French (USA)

Women's Issues
Torbjörn Tomson (Sweden)

Platform Session

Room H1

17:00 – 18:00

Basic Sciences 2

Chair: Jaideep Kapur (USA)

0051

An automated tool for reliable detection of seizures in rodent models of epilepsy
Armen Sargsyan (Australia)

0052

MMP-9 activity after traumatic brain injury as a risk for epilepsy development
Barbara Pijet (Poland)

0053

Neonatal electrographic seizures and behavioural impairment in mice with a genetic Nav1.2 channelopathy
Walid Fazeli (Germany)

www.epilepsybarcelona2017.org

SCIENTIFIC PROGRAMME INFORMATION

MONDAY 4th SEPTEMBER

- 0054** **The Mashl+/- knock-in mouse as a model for human SUDEP suitable to screen for potential anti-SUDEP agents**
Elie Abdelnour (USA)
- 0055** **Molecular variability of childhood and adult epileptogenesis: differences in miRNA profile of adult and infantile rats**
Petra Bencurova (Czech Republic)
-

Debate

Room H2

17:00 – 18:00

Do the cognitive benefits of temporal lobe surgery outweigh the cognitive risks?

Do the cognitive benefits of temporal lobe surgery outweigh the cognitive risks? – PRO

Christoph Helmstaedter (Germany)

Do the cognitive benefits of temporal lobe surgery outweigh the cognitive risks? – CON

Pamela Thompson (United Kingdom)

32ND INTERNATIONAL EPILEPSY CONGRESS

Debate

Room F

17:00 – 18:00

Is ictal scalp-EEG recording mandatory for epilepsy surgery?

Is ictal scalp-EEG recording mandatory for epilepsy surgery? – PRO

Andreas Schulze-Bonhage (Germany)

Is ictal scalp-EEG recording mandatory for epilepsy surgery? – CON

Eugen Trinka (Austria)

Satellite Symposium

Room J

18:00 – 19:30

SCIENTIFIC PROGRAMME INFORMATION

TUESDAY 5th SEPTEMBER

Teaching Session

Room A

08:00 – 09:30

Video Series

Paroxysmal Motor Phenomena: epilepsy or movement disorder?

Philippe Ryvlin (Switzerland)

Paroxysmal Motor Phenomena: epilepsy or movement disorder?

Paolo Tinuper (Italy)

Teaching Session

Room H1

08:00 – 09:30

Case Oriented Series

Epilepsy case management in resource limited settings

Angelina Kakooza (Uganda)

Epilepsy case management in resource limited settings

Gretchen Birbeck (Zambia)

Teaching Session

Room H2

08:00 – 09:30

Miscellaneous Series

Paediatric epilepsy surgery

Gary Mathern (USA)

Paediatric epilepsy surgery

Frans Leitjen (Netherlands)

32ND INTERNATIONAL EPILEPSY CONGRESS

Teaching Session

Room J

08:00 – 09:30

VIREPA Course

ILAE Wikipedia project and other internet possibilities

Kate Riney (Australia)

ILAE Wikipedia project and other internet possibilities

Sam Wiebe (Canada)

Teaching Session

Press Room II

08:00 – 09:30

EEG Course

interactive, hands-on teaching session on applying high-density EEG electrode arrays, rapid scanning of the electrode positions and testing patients during seizures.

Sándor Beniczky (Denmark)

Christian Skaarup (Denmark)

Anders Bach Justesen (Denmark)

Main Session

Congress Hall

09:30 – 11:30

Precision medicine in epilepsy

Co-chairs: Shinichi Hirose (Japan) & Jack Parent (USA)

Precision medicine: what it is and what it isn't

Sam Wiebe (Canada)

Improving therapeutics through precise diagnosis

Jacqueline French (USA)

Precision therapy through genomics, here and now

Holger Lerche (Germany)

Targeted therapy: *omics and new horizons

Parthasarthy Satishchandra (India)

www.epilepsybarcelona2017.org

SCIENTIFIC PROGRAMME INFORMATION

TUESDAY 5th SEPTEMBER

Main Session

Room J

09:30 – 11:30

Epileptic encephalopathies: Concept, treatment and outcome

Co-chairs: Rima Nababout (France) & Hari Bhathal (Spain)

The concept: use and misuse

Rima Nababout (France)

Does outcome depend on seizures and/or EEG discharges?

Federico Vigeveno (Italy)

Why aetiology matters

Mitsuhiro Kato (Japan)

Individualised treatment: present and future

Dan Lowenstein (USA)

Parallel Session

Congress Hall

12:00 – 13:30

Precision medicine: Harnessing the power of stem cells

Co-chairs: Shinichi Hirose (Japan) & Jack Parent (USA)

The potential of stem cells in precision medicine

Shinichi Hirose (Japan)

Modelling epilepsy using patient derived stem cells

Jack Parent (USA)

Modelling epilepsy using genetically modified stem cells

Zhiyuan Li (China)

Human 'mini brains' derived from stem cells

TBC

32ND INTERNATIONAL EPILEPSY CONGRESS

Parallel Session

Room A

12:00 – 13:30

Infantile spasms: state of the art

Co-chairs: Monika Eisermann (France) & Sheffali Gulati (India)

Early diagnosis is key: can we do better?

Monika Eisermann (France)

Addressing aetiology: what is the optimal work up?

Renzo Guerrini (Italy)

Steroids: mechanisms of action and efficacy

Li-Ping Zou (China)

Treatment: towards practice consensus

Katarzyna Kotulska-Jóźwiak (Poland)

Parallel Session

Room H1

12:00 – 13:30

Interventions for cognitive dysfunction in epilepsy

Co-chairs: Christoph Helmstaedter (Germany) & Pamela Thompson (United Kingdom)

Are our measurement tools appropriate?

Christoph Helmstaedter (Germany)

Early intervention in ASD and epilepsy

Lisa Ouss (France)

Cognitive rehabilitation after epilepsy surgery

Pamela Thompson (United Kingdom)

Interictal' EEG discharges and cognitive dysfunction: investigations and management'

Hal Blumenfeld (USA)

www.epilepsybarcelona2017.org

SCIENTIFIC PROGRAMME INFORMATION

TUESDAY 5th SEPTEMBER

Parallel Session

Room H2

12:00 – 13:30

How to publish in ILAE Journals

How to publish in ILAE Journals

Astrid Nehlig (France)

How to publish in ILAE Journals

Michael Sperling (USA)

How to publish in ILAE Journals

Alexis Arzimanoglou (France)

How to publish in ILAE Journals

Aristea Galanopoulou (USA)

How to publish in ILAE Journals

Dieter Schmidt (Germany)

Parallel Session

Room F

12:00 – 13:30

Novel technologies to monitor and reduce seizure-related risks

Co-chairs: Jane Hanna (United Kingdom) & Torbjörn Tomson (Sweden)

Monitoring known SUDEP risk factors using novel technologies

Torbjörn Tomson (Sweden)

Identifying new SUDEP risk factors using novel technologies

Rainer Surges (Germany)

Novel technologies to prevent premature mortality

Daniel Friedman (USA)

Novel technologies to inform patients and families on seizure related risks

Jane Hanna (United Kingdom) & Rohit Shankar (United Kingdom)

32ND INTERNATIONAL EPILEPSY CONGRESS

Parallel Session

Room J

12:00 – 13:30

Cannabinoids in epilepsy: the new frontier of pharmacological treatment

Co-chairs: Vicente Villanueva (Spain) & Jaime Parra (Spain)

Cannabis: a historical perspective in the treatment of neurological disease

Hari Bhatthal (Spain)

The endocannabinoid system, seizure and epilepsy

Istvan Katona (Hungary)

Results of clinical trial: do they match expectations?

Bruria Ben-Zeev (Israel)

Award Symposium

Room F

15:00 – 15:30

Epileptic Disorder Prize Award Symposium

Chair: Alexis Arzimanoglou (France)

Characteristic phasic evolution of convulsive seizure in PCDH19-related epilepsy

Hiroko Ikeda (Japan)

Platform Session

Congress Hall

15:30 – 16:30

Adult Epileptology

Chair: Dieter Schmidt (Germany)

0056

Seizure control after surgery for intracranial meningioma: a single centre cohort study

Hai Xue (China)

0057

High expression of cystine-glutamate antiporter xCT (SLC7A11) is an independent biomarker for epileptic seizures at diagnosis in glioma

Christoph Patrick Beier (Denmark)

www.epilepsybarcelona2017.org

SCIENTIFIC PROGRAMME INFORMATION

TUESDAY 5th SEPTEMBER

- 0058** **Autoimmune epilepsy: key findings to identify a potentially treatable disease**
Sara Matricardi (Italy)
- 0059** **Ictal vocalization in focal epilepsy**
Elisabeth Hartl (Germany)
- 0060** **Utility of home videos for diagnosis of PNES**
Bhargavi Ramanujam (India)
-

Platform Session

Room A

15:30 – 16:30

Genetics 2

Chair: Gambardella Antonio (Italy)

- 0076** **A comprehensive analysis of missense mutations in SCN1A in patients with Dravet syndrome improves interpretation of clinically relevant variants**
Marina Coelho Gonsales (Brazil)
- 0077** **Somatic mutations are abundant in focal cortical dysplasia**
Ischia Lopes-Cendes (Brazil)
- 0078** **Analysis of facial asymmetry and dysmorphism in epilepsy**
Simona Balestrini (United Kingdom)
- 0079** **Mosaicism of de novo SCN1A mutations in epilepsy: an explanation for variable phenotypes?**
Iris de Lange (Netherlands)
- 0080** **KCNB1 mutations are causing a neurodevelopmental disorder including epilepsy and autism**
Rikke S. Møller (Denmark)
-

32ND INTERNATIONAL EPILEPSY CONGRESS

Platform Session

Room H1

15:30 – 16:30

Basic Sciences 3

Co-chairs: Astrid Nehlig (France) & Ed Bertram (USA)

0061

Lentivector-mediated potassium channel overexpression decreases focal cortical seizure frequency

Robert Wykes (United Kingdom)

0062

Changes in synaptic expression of glutamatergic AMPA receptors in cortical inhibitory interneurons in a mouse model of absence epilepsy

Nadia Kafui Adotevi (New Zealand)

0063

Comparison of miRNA expression profiles in rat model of epilepsy with human mTLE+HS patients

Jiri Baloun (Czech Republic)

0064

Screening and targeting therapeutically epileptiform and behavioural phenotypes in rodent models of Angelman syndrome

Anne Anderson (USA)

0065

The dynamics of the excitatory and inhibitory neural network during development and initiation of chemoconvulsant-induced cortical seizures

Fadi Aeed (Israel)

Platform Session

Room H2

15:30 – 16:30

Epidemiology 2

Co-chairs: Peter Wolf (Denmark) & Chahnez Charfi Triki (Tunisia)

0066

Impact of comorbidities on risk for injuries and accidents in epilepsy: a prospective, population-based cohort study

Benno Mahler (Sweden)

0067

Intervention strategy for the management of epilepsy in South-East Asia

Farid Boumediene (France)

www.epilepsybarcelona2017.org

SCIENTIFIC PROGRAMME INFORMATION

TUESDAY 5th SEPTEMBER

- 0068** **The Incidence and predictors of recurrence after first seizure in emergency department and outcomes: a retrospective study in an university hospital**
Amika Praipanapong (Thailand)
- 0069** **Accidental deaths in people with epilepsy: a nationwide cohort study**
Sebastian Ruge Møller (Denmark)
- 0070** **Status epilepticus in Auckland (New Zealand); a prospective, hospital-based incidence study**
Peter S. Bergin (New Zealand)
-

Platform Session

Room F

15:30 – 16:30

Epilepsy Surgery 2

Co-chairs: Flavio Villani (Italy) & Jerome Engel (USA)

- 0071** **Fast ripples best define regional networks of epileptogenesis on paediatric intra-operative electrocorticographies**
Joyce Y. Wu (USA)
- 0072** **SEEG evaluation and surgical outcome in refractory polymicrogyria-related epilepsy: a multicentric study**
Georgia Ramantani (Switzerland)
- 0073** **SEEG-guided radiofrequency thermocoagulation for the treatment of intractable focal epilepsy** Miguel Ley Nácher (Spain)
- 0074** **Focal cortical dysplasia type II: is MEG, multimodal neuronavigation and intraoperative MR imaging helpful for surgery?**
Karl Roessler (Germany)
- 0075** **Can volumes of mesial temporal structures predict pre and post-laser ablation psychiatric comorbidities in patients with temporal lobe epilepsy?**
Naymee Velez-Ruiz (USA)
-

32ND INTERNATIONAL EPILEPSY CONGRESS

Platform Session

Room J

15:30 – 16:30

Paediatric Epilepsies 2

Co-chairs: Ronit Pressler (United Kingdom) & Solomon L. Moshé (USA)

0081

Abnormal electrophysiological properties of A1783T mutation in SCN1A may causes SMEI

Yang Zeng (China)

0082

Long-term surgical outcome in paediatric patients with focal cortical dysplasia

Eva Martinez Lizana (Germany)

0083

Long-term safety and efficacy of intracerebroventricular enzyme replacement therapy with cerliponase alfa in children with CLN2 disease: interim results from an ongoing multicenter, multinational extension study

Nicola Specchio (Italy)

0084

High agreement in the evaluation of structural MRI characteristics in tuberous sclerosis complex

Hanna Mai Hulshof (Netherlands)

0085

Neuropsychological and behavioural disorders screening program in new-onset childhood epilepsies. Preliminary results using child behaviour checklist evaluation

Faustine Iliski Lecoanet (France)

Video Session

Congress Hall

17:00 – 18:00

SCIENTIFIC PROGRAMME INFORMATION

SATELLITE SYMPOSIUM

2.9.2017

Satellite Symposium

Room A

15:30 – 17:00

LIVANOVA: Heart, body & mind | Epilepsy and the autonomic nervous system

Chair: Richard Verrier, USA

Autonomic phenomena in people with epilepsy

Speaker: Brian D. Moseley, USA

T-wave alternans and cardiac pathology in epilepsy

Speaker: Richard Verrier, USA

SUDEP – The ultimate autonomic breakdown

Speaker: Rainer Surges, Germany

Satellite Symposium

Room F

15:30 – 17:00

GW PHARMACEUTICALS: Perspectives in early-onset epilepsies: patients, physicians and possibilities

Chair: Helen Cross, United Kingdom

Co-Chair: Hari Bhathal, Spain

Early-onset epilepsies: the patient perspective

Speaker: Isabella Brambilla, Italy

Early-onset epilepsies: the societal perspective

Speaker: Sameer Zuberi, United Kingdom

Early-onset epilepsies: the clinical perspective

Speaker: Victoria San Antonio-Arce, Spain

Panel Discussion and Audience Q&A

32ND INTERNATIONAL EPILEPSY CONGRESS

3.9.2017

Satellite Symposium

Room F

08:00 – 09:30

ELEKTA: Source localization and network analysis with MEG and EEG

Chair: Paul Boon, Belgium

MEG and EEG source localization

Speaker: Evelien Carette, Belgium

Networks and clinical implications

Speaker: Hermann Stefan, Germany

MEG in clinical use, experiences in Spain

Speaker: Leonides Canuet Delis, Spain

Satellite Symposium

Room A

16:30 – 18:00

ZOGENIX: Recognising the burdens of dravet syndrome: co-morbidities, mortality, SUDEP

Chair: Lieven Lagae, Belgium

Chairman's Introduction

Speaker: Lieven Lagae, Belgium

Dravet Syndrome: Impact beyond seizures

Speaker: Alexis Arzimanoglou, France

Co-morbidities: Real life insights

Speaker: Lieven Lagae, Belgium

The burdens: Current challenges

Speaker: Ley Sander, United Kingdom

Panel Discussion

www.epilepsybarcelona2017.org

SCIENTIFIC PROGRAMME INFORMATION

SATELLITE SYMPOSIUM

Satellite Symposium

Congress Hall

18:00 – 19:30

BIOMARIN: A time critical genetic epilepsy – new data for diagnosing and managing children with CLN2 disease

Chair: Angela Schulz, Germany

A new era for CLN2 disease: Natural history and new data for clinical management

Speaker: Angela Schulz, Germany

Epilepsy neurogenetics: earlier diagnosis of CLN2 disease in clinical practice

Speaker: Raman Sankar, USA

EEG and clinical clues: Identifying CLN2 disease within early-onset myoclonic epilepsies

Speaker: Nicola Specchio, Italy

Discussion: Minimising diagnostic delay in CLN2

Satellite Symposium

Room F

18:10 – 19:40

EISAI: Mechanisms behind tumour growth and epileptic activity in brain tumours; discussion of the AMPA receptor pathway and clinical implications

Co-Chairs: Matthew Walker, United Kingdom & Riccardo Soffietti, Italy

Can we be better at treating seizures in patients with brain tumour-related epilepsy?

Speaker: Gilles Huberfeld, France

Why do we need to understand the glutamatergic mechanisms in brain tumour-related epilepsy?

Speaker: Mark Cunningham, United Kingdom

It's time to conduct brain tumour-related epilepsy trials!

Speaker: Terence O'Brien, Australia

32ND INTERNATIONAL EPILEPSY CONGRESS

4.9.2017

Satellite Symposium

Room H2

08:00 – 09:30

MEDTRONIC: Advancing treatment options for drug-resistant epilepsy patients MRI-guided laser ablation and deep brain stimulation

Satellite Symposium

Room J

18:00 – 19:30

GW PHARMACEUTICALS: Moving on: Patients with early-onset epilepsies and the transition to adult care

Chair: Antonio Gil-Nagel, Spain

Anything but child's play: Early-onset epilepsies

Speaker: Nicola Specchio, Italy

Challenges faced by adult epileptologists: Transitioning patients with early-onset epilepsies

Speaker: Bernhard J. Steinhoff, Germany

Taking the first step: Models of care for transitional services

Speaker: Rima Nabbout, France

Panel Discussion and Audience Q&A

5.9.2017

Satellite Symposium

Room J

18:00 – 19:30

EISAI-BIAL: Optimising epilepsy therapy: trials, tribulations, evidence and experience... Do we really know our AEDs?

Chair: Rob McMurray, United Kingdom

Introduction to AED trial programs

Speaker: Martin Holtkamp, Germany

Robust clinical trial programs give us the best insight into our AEDs

Speaker: Mar Carreño, Spain

Real world studies give us the best insight into our AEDs

Speaker: Vicente Villanueva, Spain

www.epilepsybarcelona2017.org

POSTERS

GENERAL INFORMATION

The Poster Area is situated on Level –1 of the congress centre. Posters are on display here from 10:30 to 17:30, with different posters presented each day (Sunday 3rd to Tuesday 5th September).

Presenters must set up their posters between 09:30 and 10:30 and materials will be provided for affixing posters to the poster boards. The posters must be removed between 17:30 and 18:30 and please note that the 32nd IEC does not take any responsibility for unclaimed posters.

The Scientific and Organising Committee has chosen to organise guided poster tours, led by experts in the field, during the lunch break, giving researchers the opportunity to present their work during the congress. Presenters will be available at their posters on their assigned day. Each presenter shall be given few minutes to outline their findings and answer questions.

The poster abstracts are available on the 32nd IEC website www.epilepsybarcelona2017.org and in the interactive session planner. They will also be published subject to editorial review in an online supplement of *Epilepsia* post congress.

Delegates can search for abstracts by keywords and access the full papers on the congress app which can be downloaded from the App Store.

BEST ABSTRACTS

Best Abstract Contribution

A number of posters have been selected by the Scientific and Organising Committee to receive a Best Abstract Contribution notification. The best abstract recognition was based on the merit and special interest of the abstract content.

The Best Abstract Contribution will be identified with a rosette which will be placed on the poster board.

Best Abstract Contribution Abstracts

Adult Epileptology

- 240 Factors affecting the number of oligodendrocytes in human temporal lobe epilepsy: a clinicopathological study.
Miyata, Sugie, Kawamura, Hori.
- 561 Audit of epilepsy healthcare provision in a large UK category B prison.
Thomasson, Coyle, Reynolds, Lees, Partington, Cooper.
- 617 Neuronal autoantibodies are infrequently associated with mesial temporal lobe epilepsy with hippocampal sclerosis
Nobrega-Jr AW1, Gregory, Schlindwein-Zanini, Wolf, Steindel, Lin
- 786 Juvenile Myoclonic Epilepsy: Long-term prognosis and treatment withdrawal.
Viloria Alebesque, Bellosta Diago, Santos Lasaosa, Mauri Llerda.
- 803 Seizure semiology versus subjectivity: a linguistic approach to understanding focal aware seizures.
Sanchez-Davies.
- 1456 The modified Atkins diet in patients with refractory epilepsy and intellectual disability – a randomized controlled trial .
Hulshof, Jansen, Braun, Carpay.

Basic Sciences

- 780 Online hydrogen peroxide measurement during oxidative stress generated by seizure activity using a high temporal resolution

www.epilepsybarcelona2017.org

POSTERS

Pardo-Peña, Sanchez-Lira, Morales-Villagrán.

- 865 AMPA receptor antagonism in mitochondrial epilepsy: a potential therapeutic target?

Chan F1, Skeen A1, Lax N2, Turnbull D2, Cunningham M1

- 1050 Different mossy fiber sprouting patterns in ILAE hippocampal sclerosis types.

Schmeiser, Li, Brandt, Zentner, Doostkam, Freiman.

- 1181 Perivascular PDGFR cells participate to inflammation during in vivo epileptogenesis and in vitro ictogenesis.

Klement, Runtz, Girard, Fayd'herbe, Smith, Morin-Brureau, Bertaso, De Bock, Marchi.

Clinical Neurophysiology

- 242 A systematic review on diagnostic accuracy and clinical value of non-invasive long-term video-EEG monitoring in pre-surgical evaluation of patients with epilepsy.

Kobulashvili, Kuchukhidze, Brigo, Zimmermann, Höfler, Leitinger, Dobesberger, Kalss, Rohrer, Neuray, Wakonig, Ernst, Trinka.

- 376 DIAGNOSIS OF EPILEPTIC ACTIVITY ACCORDING EEG COHERENCE.

Dokukina, Misyuk, Makhrov, Khlebokazov, Korolevich, Marchuk.

- 396 Pattern of ictal intracerebral EEG at the start of alteration of consciousness.

Campora, Kochen.

32ND INTERNATIONAL EPILEPSY CONGRESS

- 571 Tracking heart rate changes during seizures: a national study using ResearchKit and Apple Watch to collect biosensor and response data during seizures.
Carmenate, Gonzalez, Ge, Collard, Lee, Crone, Krauss.
- 591 Interictal very fast ripples (500-1000 Hz) and ultrafast ripples (1-2 kHz): Novel biomarkers of the epileptogenic zone.
Brazdil, Pail, Halámek, Plešinger, Cimbálník, Roman, Klimeš P, Daniel, Chrastina, Brichtová, Rektor, Worrell, Jurák.
- 742 Non-contact video detection of tonic-clonic seizures in a residential care setting.
Geertsema, Gutter, Vledder, Arends, Leijten, Thijs, Visser, Kalitzin.
- 948 A study of praxis-induced seizures in Juvenile Myoclonic Epilepsy.
Abarrategui, Rodrigues De Marchi, Zetehaku, Torres Corso, Visona Figueiredo, Guaranha, Yacubian.
- 1071 Seizure onset zone connectivity during wakefulness and sleep studied through single pulse electrical stimulation during SEEG recordings
Arbune, Mindruta, Mihai Dragos, Popa, Ene, Ciurea, Barborica.
- 1076 Exploring cardiac autonomic functions in eating epilepsy .
Sathyaprabha, Meghana, Jaideep, Prathyusha, Sinha, Satishchandra.

POSTERS

- 1275 Event-related potentials in temporal lobe epilepsy with and without hippocampal sclerosis.
Kim.
- 1297 Alternative seizure provoking techniques at the Epilepsy Monitoring Unit Palm.
Eriksen, Dunkan, Olsen, Mæhl, Lundgren Hansen, Beniczky, Gardella.
- 1446 Duration of Tachycardia in the Post-ictal period.
Scott, Allen, Valente, Cuarentas, Diehl.
- 1567 Déjà-rêvé (already dreamed) induced by electrical brain stimulation.
Curot, Valton, Denuelle, Busigny, Vignal, Maillard, Pariente, Trébuchon, Bartolomei, Barbeau.

Comorbidities

- 906 Brain activity continues during postictal EEG suppression in intracranial and scalp recordings.
Bateman, Mendiratta, Liou, Smith, Bazil, Choi, McKhann, Pack, Sheth, Srinivasan, Schevon.

Drug Therapy

- 3 THE ACTUAL MECHANISM BY WHICH PHENYTOIN DISPLAYS MICHAELIS-MENTEN KINETICS.
Fagiolino, Vázquez, Ibarra, Alvariza, Maldonado.

32ND INTERNATIONAL EPILEPSY CONGRESS

- 227 Antiepileptic drug withdrawal for terminal remission in patients with epilepsy in the general population.
Giussani, Bianchi, Erba, Sander, Beghi, EPIRES Study Group.
- 525 Treatment with cannabidiol (CBD) significantly reduces drop seizure frequency in Lennox-Gastaut syndrome (LGS): results of a multi-centre, randomised, double-blind, placebo-controlled trial (GWPCARE4).
Mazurkiewicz-Beldzinska, Thiele, Benbadis, Marsh, Joshi, French, Roberts, Taylor, Sommerville.
- 588 Cannabidiol (CBD) in Dravet syndrome: A randomised, dose-ranging pharmacokinetics and safety trial (GWPCARE1).
Wright, Devinsky, Thiele, Wong, Appleton, Patel, Harden, Sommerville, Greenwood, Morrison.
- 640 Impact of everolimus treatment on quality of life (QoL) in patients with tuberous sclerosis complex (TSC) who have refractory partial-onset seizures in the context of an interventional clinical trial (EXIST-3).
Nabbout, Franz, Lawson, Curatolo, Neary, Fan, Herbst, Sully, Brohan, de Vries.
- 929 Perampanel in routine clinical use across Europe: pooled observational studies.
Rohracher, Zimmermann, Villanueva, Garamendi, Sander, Shankar, Ben-Menachem, Brodie, Pensel, Wehner, Di Gennaro, Maurousset, Strzelczyk, Rheims, Rácz, Menzler, Bertol-Alegre, García-Morales, López-González, Toledo, Trinká.

POSTERS

- 932 Use of eslicarbazepine in children and adolescents with refractory epilepsy at two National Epilepsy Centres, Denmark and Norway.
- Baftiu, Burns, Nikaronova, Ramm-Pettersen, Rasmussen, Johannessen, Landmark.
- 1450 Real-world effectiveness and tolerability of eslicarbazepine acetate in patients receiving versus not receiving other sodium-channel blockers.
- Lawthom, Sales, McMurray, Villanueva.
- 1458 Prevalence, Characteristics and Patterns of Drug Resistant Epilepsy in A Cohort of Adult Epilepsy Patients with Focal Onset Seizures.
- A-Hakam, Ali, Alfaki.

Epidemiology

- 294 A National Profile of Neurodevelopmental Disabilities in Canadian Children: Data from the National Longitudinal Study of Children and Youth.
- Prasad, Corbett.
- 1492 Premature mortality in persons with epilepsy and schizophrenia – a nationwide cohort study .
- Maul Andersen, Petersen, Vestergaard, Bøcker Pedersen, Christensen.

32ND INTERNATIONAL EPILEPSY CONGRESS

Epilepsy in severely resource-restricted settings

- 158 The Role of Trained Community Health Volunteer in Improving Adherence in Children with Epilepsy in Rural Kenya.
MARAGA.
- 748 Quality of carbamazepine in resource-limited settings: ancillary results from the QUAEDAf (Quality of Antiepileptic Drugs in sub-Saharan Africa) study.
Jost, Nguyen, Ratsimbazafy, Auditeau, Raharivelo, Newton, Dufat, Preux.

Epilepsy in the elderly

- 1537 Perampanel use in older people with epilepsy: pooled data from European observational studies.
Neuray, Zimmermann, Villanueva, Garamendi, Sander, Shankar, Ben-Menachem, Brodie, Pensel, Wehner, Di Gennaro, Maurousset, Strzelczyk, Rheims, Rácz, Knake, Bertol-Alegre, García-Morales, López-González, Toledo, Trinka.

Epilepsy Surgery

- 706 Outcome and prognostic factors of epilepsy surgery in children with focal cortical dysplasia.
Choi, Kim, Kim, Kim, Lim, Hwang, Choi, Chae, Kim.
- 947 High frequency oscillations in tumour related epilepsy.
van Klink, Zweiphenning, Miller, Aronica, Braun, Zijlmans.
- 979 SEEG-guided radiofrequency thermocoagulation for the treatment of intractable focal epilepsy.

POSTERS

- 1077 Ley Nácher, Alessandro, Álvaro, Tauste, Rocamora.
Stereo electroencephalography-guided radiofrequency thermocoagulation in drug-resistant focal epilepsy: a new paediatric technique to guide the surgery.
Chipaux, Ferrand-Sorbets, Fohlen, Dorison, Taussig, Dorfmueller.
- 1390 Atypical Presentation of Rasmussen's Encephalitis: A Case Series.
Reyes Valenzuela, Princich, Gutierrez, Lizama, Beltrán, Massaro Sánchez, Bartuluchi, Lubieniecki, Caraballo.

Genetics

- 775 The identification for pharmacogenetic biomarkers in the treatment of epilepsy.
Wolking, Stapleton, Schulz, Nies, McCormack, Schubert, Schwab, Sander, Cavalleri, Lerche, EpiPGX Consortium.
- 1304 GENETIC HETEROGENEITY OF SLEEP RELATED HYPERMOTOR EPILEPSY (SHE).
Bisulli, Licchetta, Baldassari, Provini, Plazzi, Santucci, Vignatelli, Zenisi, Scheffer, Berkovic, Pippucci, Tinuper, LICE (Italian League against Epilepsy) Genetic Study Group.
- 1326 Targeted next generation sequencing as a diagnostic tool in 644 childhood epilepsy patients and transmission of variants from mosaic parents.
Larsen, Hao, Kako, Olofsson, Mirand, Kinali, Borggräfe, Svaneby, Nielsen, Lavard, Uldall, Talvik, Talvik, Fusco, Spagnoli, Frangu, Born,

32ND INTERNATIONAL EPILEPSY CONGRESS

Striano, Pal, Oates, Gellert, Nikanorova, Petersen, Lautrup, Brusgaard, Dunkhase-Heinl, Rokkjær, Bayat, Petkov, Børresen, Jepsen, Marjanovic, Hjalgrim, Dahl, Møller.

- 1377 Recessive variants in VARS cause a clinical syndrome with severe developmental delay, epilepsy and microcephaly.
Siekierska, Stamberger, Sourbron, Deconinck, Kecskes, Oprescu, Waisfisz, Helbig, Hardies, Shinde, Jähn, Muhle, Pendziwiat, Helbig, Hersh, Lakeman, Schmitt, Von Spiczak, Weiss, Weckhuysen, May, Balling, Antonellis, De Jonghe, de Witte, EuroEPINOMICS-RES consortium AR working group.
- 1632 Distribution of genetic epilepsies and accordingly adjusted medical treatment at the Danish Epilepsy Centre: A systematic analysis of children born between 2006 and 2011
Fenger, Johannesen, Gardella, Rubboli, Kjelgaard, Hjalgrim, Møller.

Neuroimaging

- 212 A Multimodal Neuroimaging Study of Psychosis of Epilepsy (POE).
Allebone, Wilson, Kanaan.
- 287 The added value of high-field MRI at 7T for pre-surgical evaluation of drug-resistant epilepsy.

POSTERS

- 402 Time is brain? A systematic review and meta-analysis on progressive atrophy in drug-resistant temporal lobe epilepsy
Caciagli, Bernasconi, Wiebe, Koepp, Bernasconi, Bernhardt.
- 566 Do subtle hippocampal structural changes on MRI serve as biomarkers for seizure recurrence in a prospective first seizure cohort?
Ghuman, Crocker, Legg, Schmidt, Pohlmann-Eden.
- 700 Ictal brain perfusion SPECT subtracted with interictal FDG-PET for seizure onset focus localization.
Perissinotti, Niñerola-Baizán, Rubí, Carreño, Donaire, Bargalló, Rumiá, Martí-Fuster, Pavía, Ros, Lomeña, Setoain.
- 829 Asymmetrical volume reduction of the hippocampal subfields in drug-resistant patients with generalized tonic-clonic seizures.
Wang, Wang, Cao, Wang, Xu.
- 848 EpiJET: First commercially available automated injector for ictal SPECT.
Setoain, Donaire, Vernet, Gil, Mayoral, Rumià, Campos, Bargalló, Tapias, Carreño.
- 1228 Epileptic network in action: Synchrony of intracranial spiking activity in distant interictal discharge-related hemodynamic responses revealed by EEG/fMRI.
Khoq, von Ellenrieder, Zazubovits, Dubeau, Gotman
- 1366 Whole-brain structural connectome disruptions in temporal lobe epilepsy: relation to hippocampal pathology
Bernhardt, Liu, Hong, Gu, Bassett, Bernasconi, Bernasconi

32ND INTERNATIONAL EPILEPSY CONGRESS

- 1542 Poorly controlled seizures disrupt resting state networks in patients with generalized epilepsies
Garcia, Alvim, Polydoro, Ishikawa, Montanher, Campos, Morita, Cendes, Yasuda.

Neuropsychology

- 1452 Development and validation of Ictal Cognitive Testing and Localization (ICTAL): an individualised hypothesis-testing tablet based neuropsychological test program to evaluate cognitive deficits during ictal EEG abnormalities, Wada-testing, intracranial EEG recordings and awake surgery.
Hendriks, Flachs, Bremm, Colon, Tousseyn, Wagner, Vaessen.
- 1568 Cognitive outcomes following Radiofrequency-Thermocoagulation in Temporal Lobe Epilepsy (TLE): Preliminary Data.
Pérez-Enríquez, Manero, Peña-Casanova, Principe, Ley-Nacher, Delgado-Martinez, Conesa, Rocamora.

Neurostimulation

- 580 Real-time suppression of temporal lobe epileptiform discharges by closed-loop optogenetic stimulation
Lin, Ju, Lin.
- 984 Clinical outcomes of VNS therapy with AspireSR at a large UK Complex Epilepsy and Surgery Centre
Hamilton, Dhahri, Leat, Hughes, Toghill, Bagary, McCorry, Soryal, Chelvarajah.

POSTERS

- 1099 A single centre study comparing the effectiveness of the AspireSR®
106 Vagus Nerve Stimulator model to older models in drug
resistant epilepsy.
Mecia, Sheikh, Maguire, Wright, Sivakumar.
- 1318 Ventral anterior cingulate gyrus: integration of body position and
complex motor responses
Centeno, Jha, Nachev, Diehl.

Paediatric Epileptology

- 832 Electroencephalographic and Diffusion Tensor Imaging Changes in
Idiopathic Epileptic Children Imane.
Yassine, Hosny, Ashour, ElDeeb, Gad.
- 1321 Sleep disorders in children and adolescents with epilepsy: an
observational study.
Furia, Zambrelli, Turner, Malanchini, Vignoli, La Briola, Mingarelli,
Canevini.
- 1471 Significance of functional connectivity before and after corpus
callosotomy or hemispherotomy in paediatric epilepsy patients.
Ko, Pae, Oh, Eom, Kim, Kang, Kim, Kim, Park, Lee.
- 1461 Efficacy, Acceptability and Tolerability of Low Glycemic Index Diet
in South Indian Children with Refractory Epilepsy.
Pavithran.

32ND INTERNATIONAL EPILEPSY CONGRESS

- 1571 Lysine Restriction in Pyridoxine Dependent Epilepsy; Results after 2 years of follow-up
Hartmann, de Rooy, Bok L3, van Karnebeek, Lunsing, van Rijn, van Wegberg, van Spronsen.
- 1606 Pathogenic variants in KCTD7 perturb neuronal K⁺ fluxes and glutamine transport.
Moen MN1, Fajaer, El Hassan, El Khashab, Salih MA5, Chaudhry.
- 1656 Updates to the Lafora Epilepsy Cure Initiative (LECI) Clinical Centre: Development of a data collection tool for measurement of Lafora Epilepsy Disease Progression.
Nguyen, Serratosa, Gonzales, Genton, Michelucci, Sinha, Chandra, Beydoun, Arabi, Kecmanovic, Whitehouse, Martinez-Juarez, Guilhoto, Salas-Puig, Ben-Menachem, Goldsmith, Duron, Medina, Bailey, Gentry M18, Minassian, Delgado-Escueta.

Psychiatry

- 511 Emotion recognition of auditory and visual stimuli in patients with resistant temporal lobe epilepsy.
Fernandez Lima, Oddo, Pereira de Silva, Giagante, Solis, Princich, Gori, Munera, Kochen, D'Alessio.

Status Epilepticus

- 274 DECREASED ALLOPREGNANOLONE LEVELS IN CEREBROSPINAL FLUID OF PATIENTS WITH STATUS EPILEPTICUS.
Monti, Giovannini, Lucchi, Bedin, Trenti, Rustichelli, Biagini, Meletti.

POSTERS

- 1553 Re-evaluation of the Critically Ill Patients with Non-convulsive Status Epilepticus by Using Salzburg Consensus Criteria.
Gungor Tuncer, Altindag, Nalbantoglu, Acik, Tavukcu Ozkan, Baykan.

Women's Issues

- 235 Miscarriages in Pregnant Women with Epilepsy: Findings from the MONEAD Study.
Meador, Pennell, May, McElrath, Gerard, Kalayjian, Velez-Ruiz, Gedzelman, Penovich, Cavitt, Hwang, Pack, Moore, Ippolito, Sam, MONEAD Investigator Group.

32ND INTERNATIONAL EPILEPSY CONGRESS

Adult Epileptology

- 240 Factors affecting the number of oligodendrocytes in human temporal lobe epilepsy: a clinicopathological study.
Miyata, Sugie, Kawamura, Hori.
- 561 Audit of epilepsy healthcare provision in a large UK category B prison.
Thomasson, Coyle, Reynolds, Lees, Partington, Cooper.
- 617 Neuronal autoantibodies are infrequently associated with mesial temporal lobe epilepsy with hippocampal sclerosis
Nobrega-Jr AW1, Gregory, Schlindwein-Zanini, Wolf, Steindel, Lin
- 786 Juvenile Myoclonic Epilepsy: Long-term prognosis and treatment withdrawal.
Viloria Alebesque, Bellosta Diago, Santos Lasaosa, Mauri Llerda.
- 803 Seizure semiology versus subjectivity: a linguistic approach to understanding focal aware seizures.
Sanchez-Davies.
- 1456 The modified Atkins diet in patients with refractory epilepsy and intellectual disability – a randomized controlled trial .
Hulshof, Jansen, Braun, Carpay.

Basic Sciences

- 780 Online hydrogen peroxide measurement during oxidative stress generated by seizure activity using a high temporal resolution

POSTERS

POSTERS

Adult Epileptology 1

- p0091** **Association between environmental ozone levels and increased epileptic seizures in patients with epilepsy in a hospital in Mexico City**
Victor Gomez-Arias (Mexico)
- p0092** **A case of N-methyl-D-aspartate receptor antibodies associated autoimmune temporal lobe epilepsy with amygdala enlargement**
Go Taniguchi (Japan)
- p0093** **Portosystemic shunt: an important differential diagnosis of consciousness disturbance in middle age**
Shunsuke Kajikawa (Japan)
- p0094** **Predictors of outcome in patients with acute symptomatic seizure**
Gopal Krishna Dash (India)
- p0095** **Headaches associated with symptomatic epilepsy in adults**
Sanja Atic (Serbia)
- p0096** **Temporal lobe epilepsy with amygdala enlargement: a clinical study**
Masanaka Takeda (Japan)
- p0097** **Epilepsy and neuropsychiatric lupus: case report and literature review**
Guadalupe Bonilla Mejia (Ecuador)
- p0098** **Clinical characteristics of epileptic seizures associated with protein S deficiency**
Masako Kinoshita (Japan)
- p0099** **Musicogenic epilepsy – an autoimmune-mediated condition?**
Anke Maren Staack (Germany)
- p0100** **Factors affecting the number of oligodendrocytes in human temporal lobe epilepsy: a clinicopathological study**
Hajime Miyata (Japan)
-

Adult Epileptology 2

- p0101** **A closer look at burn injuries and epilepsy: an experience in a rural area**
Naluca Mwendaweli (Zambia)
- p0102** **Internal-external locus of control and self-perception of auras**
Katia Lin (Brazil)
- p0103** **Up-regulation of autophagy and mitophagy in refractory temporal lobe epilepsy patients with hippocampal sclerosis**
Jin-Mei Li (China)
- p0104** **Hippocampal sclerosis in LGI1 and CSPR2 positive limbic encephalopathy: a case report**
Ammar Taha Abdullah Abdulaziz (China)
- p0105** **Relation between gender, psychiatric and cognitive disorders and experiential auras in patients with temporal lobe epilepsy**
Vanessa Benjumea-Cuatas (Argentina)
- p0106** **Seizure outcomes in patients with anti-NMDAR encephalitis: a 6-year follow-up study**
Xu Liu (China)
- p0107** **Non-dipping nocturnal blood pressure in patients with epilepsy**
Sungjin Park (Korea, Republic of)
- p0108** **Longitudinal bilateral hippocampal N-acetyl-aspartate values obtained using magnetic resonance spectroscopy over more than three years in patients with epilepsy**
Tohru Hoshida (Japan)
- p0109** **Occurrence and predictors of post stroke epilepsy. A prospective study and meta-analyses**
Feruzjon Rakhimov (Uzbekistan)
- p0110** **A patient with complex partial seizures and insulinoma**
Magdalena Bosak (Poland)

POSTERS

- p0111** **Sleepless in Singapore – characterization of sleep-related seizures in a tertiary institution**
Minna Sim (Singapore)
-

Adult Epileptology 3

- p0112** **Focal and generalized epilepsy: which seizure-modulatory factors are most frequent?**
Juliane Sauter Dalbem (Brazil)
- p0113** **How common are exogenous modulators in epilepsy and migraine?**
Juliane Sauter Dalbem (Brazil)
- p0114** **Interleukins interictal data and tau-protein in patients with long-standing pharmaco-resistant epilepsy**
Yevgeniya Lekomtseva (Ukraine)
- p0115** **A pilot study on relationship between plasma haptoglobin and posttraumatic epilepsy**
Hyungkook Park (Korea, Republic of)
- p0116** **Audit of epilepsy healthcare provision in a large UK category B prison**
Rachel Thomasson (United Kingdom)
- p0117** **Eyelid myoclonia with absences of an old female**
Zhang Meiyun (China)
- p0118** **Neuronal autoantibodies are infrequently associated with mesial temporal lobe epilepsy with hippocampal sclerosis**
Katia Lin (Brazil)
- p0119** **Seizure associated with autoimmune encephalitis: seizure characterization, EEG manifestation, follow-up observation and prognostic factors**
Wang Jianhong (China)
- p0120** **Could adult temporal lobe epilepsy predict cognitive decline?**
Vanesa Adell Ortega (Spain)
- p0121** **Epilepsy and habitual physical activity in Brazil: a case-control study**
Katia Lin (Brazil)

Basic Science 1

- p0122** **Sulfasalazine as a treatment for acquired epilepsy**
Oscar Alcoreza (USA)
- p0123** **Effect of low frequency stimulation of Schaffer collaterals on the electrophysiological properties of the CA1 pyramidal cells during epileptiform activity**
Zahra Ghasemi (Iran, Islamic Republic of)
- p0124** **The normative values of diffusion-weighted sequence of magnetic resonance imaging in healthy children**
Dildora Aminova (Uzbekistan)
- p0126** **Effect of chronic administration of krill oil in the expression of connexin 36 and 43 in the hippocampus of adult rats with generalized seizures induced by pentylenetetrazole and neonatal febrile seizures**
Fridha Viridiana Villalpando Vargas (Mexico)
- p0127** **Epigenetic regulation of functional networks in focal cortical dysplasia**
Katja Kobow (Germany)
- p0128** **Protective effects of potocatechuic acid (PCA) on seizure-induced neuronal death**
Hong Ki Song (Korea, Republic of)
- p0129** **Experimental model of epilepsy induced by intrahippocampal bethanechol chloride**
José Cláudio da Silva (Brazil)

Basic Science 2

- p0130** **Effect of lacosamide on epileptiform activity induced in human neocortical and hippocampal slices**
Selvin Zacarias Reyes Garcia (Brazil)
- p0131** **Nav1.2 is expressed in reelin-positive interneurons**
Kazuhiro Yamakawa (Japan)

POSTERS

- p0132** **Assessment of serotonergic system in formation of memory and learning**
José Cláudio da Silva (Brazil)
- p0133** **Analysis of ion channel properties and rhythmic oscillatory activity in the thalamocortical system following demyelination**
Rahul Chaudhary (Germany)
- p0134** **Impaired baroreflex sensitivity after bilateral convulsive seizures in patients with focal epilepsy**
Kevin Hampel (Spain)
- p0135** **Increased expression of SNX27 in patients with temporal lobe epilepsy and a mouse model**
Chao Du (China)
- p0136** **Mitophagy in refractory temporal lobe epilepsy patients with hippocampal sclerosis**
Mengqian Wu (China)
- p0137** **Inhibition of glutamate decarboxylase (GAD) by ethyl ketopentenoate (EKP) induces treatment-resistant epileptic seizures in zebrafish**
Yifan Zhang (Belgium)
- p0138** **NR4A1 knockdown suppresses seizure activity by regulating surface expression of NR2B**
Yanke Zhang (China)

Basic Science 3

- p0139** **Physical exercise during pregnancy attenuates the negative effects of PTZ-induced seizures in offspring from mothers submitted to prenatal stress**
Glauber Menezes Lopim (Brazil)
- p0141** **New model of drug resistant seizures: validation, ABC transporters expression and seizure threshold evaluation**
Andrea Enrique (Argentina)
- p0142** **The role of the cholinergic system in animal models of temporal lobe epilepsy**
Sebastian Meller (Germany)

32ND INTERNATIONAL EPILEPSY CONGRESS

- p0143** **Regulation of MnSOD activity by Sirt3 against oxidative stress after prolonged status epilepticus**
INJA Cho (Korea, Republic of)
- p0144** **In vitro antineoplastic effects on human glioblastoma cells of lacosamide and brivaracetam**
Marta Maschio (Italy)
- p0146** **Anticonvulsant effect of electrical stimulation of the anterior thalamic nucleus on focal cortical seizure in rats**
Alexei A. Shandra (Ukraine)
- p0147** **Electroencephalographic features after intrahippocampal microinjection of bethanechol**
José Cláudio da Silva (Brazil)
- p0148** **Ablation of new-born granule cells after epilepsy onset halts disease progression**
Steve Danzer (USA)
- p0149** **Role of inter-ictal discharges: initiating or delaying seizures?**
Jaroslav Hlinka (Czech Republic)
-

Basic Science 4

- p0150** **Effects of Ro 53-1908 AND Ro 04-5595 intrahippocampal microperfusion on the picrotoxin seizure threshold in freely moving rats**
Moisés Fernández-García (Spain)
- p0151** **Simultaneous quantification of five neuroactive amino acids in different regions of rat brain by HPLC-FLD**
Sandra Ventura (Portugal)
- p0152** **The iPSC-derived neurons made by 2 unrelated protocols currently used for epileptic encephalopathy modelling reveal distinctive electrophysiology features**
Filip Rosa (Germany)

POSTERS

- p0153** **Whole genome sequencing the genetic absence epilepsy rat from Strasbourg, its related non-epileptic strain and their F2 progeny**
Pablo M. Casillas-Espinosa (Australia)
- p0154** **The acute and long term toxicity of dextromethorphan in the developing brain**
Jordan Richardson (USA)
- p0155** **Anti-oxidant intervention during epileptogenesis delays disease onset and blocks its progression in a rat model of acquired epilepsy**
Alessia Salamone (Italy)
- p0156** **Analysis of effectiveness of Hippophae rhamnoides treatment on ion channel activity in animal model of post-traumatic epilepsy**
Stanzin Ladoi (India)
- p0157** **Influence of gestational DLT exposure on seizure susceptibility and epileptogenesis in iron induced epilepsy model**
Kamendra Kumar (India)
- p0159** **Investigating the short-term effects of ketogenic medium-chain triglyceride (MCT) supplement on canine epilepsy in drug-non-responders**
Benjamin-Andreas Berk (United Kingdom)
- p0160** **Further evidence for a differential site of action of the anticonvulsants brivaracetam and levetiracetam on the SV2A protein**
Martyn Wood (Belgium)

Clinical Neurophysiology 1

- p0161** **Electroclinical features of non-lesional ESES/CSWS associated with genetic mutations**
Elena Gardella (Denmark)
- p0163** **Electrophysiological dysfunction in forensic patients with post-traumatic epilepsy**
Ana Calzada-Reyes (Cuba)

32ND INTERNATIONAL EPILEPSY CONGRESS

- p0164** **Electroclinic study of temporal epilepsy in Fann Teaching Hospital, DakarSenegal**
Maouly Fall (Senegal)
- p0165** **MRI abnormalities and EEG patterns of symptomatic epilepsy in children with brain anomalies**
Khabibulla Aminov (Uzbekistan)
- p0166** **Recruiting rhythm and clinically evident seizure pattern in benign infantile convulsions associated with mild gastroenteritis**
Vasily Nogovitsyn (Russia)
- p0167** **Focal EEG features and therapeutic response in patients with juvenile absence and myoclonic epilepsy**
Giorgi Japaridze (Georgia)
- p0168** **EEG as a prognostic tool for typical absence**
Karim Tawfik (Egypt)
- p0169** **Intracranial metallic body artifact in routine scalp EEG: a case series**
Karim Tawfik (Egypt)

Clinical Neurophysiology 2

- p0170** **Clinical and eeg features of patient with ictal EEG pattern**
Akhmad Syahrir (Indonesia)
- p0171** **A systematic review on diagnostic accuracy and clinical value of non-invasive long term video-EEG monitoring in pre-surgical evaluation of patients with epilepsy**
Teia Kobulashvili (Austria)
- p0172** **Rapid and accurate measurement of 3D positions of high-density EEG array: a pilot study in the clinical setting**
Anders Bach Justesen (Denmark)
- p0173** **Two patterns of 3Hz waveform of ictal EEG for child absence epilepsy**
Meiyun Zhang (China)

POSTERS

- p0174** **Burst Suppression in full term neonates**
Patricia Vilarinho (United Kingdom)
- p0175** **Improving staff response to seizures on the Epilepsy Monitoring Unit with online EEG seizure detection algorithms**
Nicole Rommens (Netherlands)
- p0176** **Disturbances of reactivity of cerebral vessels in patients with posttraumatic epilepsy**
Iuliia Iakubenko (Ukraine)
- p0177** **Diagnosis of epileptic activity according EEG coherence**
Tatiana Dokukina (Belarus)
- p0178** **Diagnosis of epileptic activity according EEG coherence**
Tatiana Dokukina (Belarus)
- p0180** **Pattern of ictal intracerebral EEG at the start of alteration of consciousness**
Nuria Campora (Argentina)

Clinical Neurophysiology 3

- p0181** **Clinical use of polysomnography with epilepsy patients**
Aylin Demir (Turkey)
- p0182** **Research on retrospective EKG records of epilepsy patients who are undergone follow-up at the video EEG unit for arrhythmia**
Ibrahim Bora (Turkey)
- p0183** **Post traumatic epilepsy due to traumatic brain injury by traffic accidents in neurophysiological explorations Laboratory of Marrakesh University Hospital**
Abderrahmane Chahidi (Morocco)
- p0184** **Sleep related epilepsy in focal cortical dysplasia type II (FCD2): insights from sleep recordings**
Christin Eltze (United Kingdom)
- p0185** **Using MEG-virtual electrodes at depth electrode locations to characterize the seizure onset zone in refractory epilepsy patients**
Erika Liliana Juarez-Martinez (Netherlands)

32ND INTERNATIONAL EPILEPSY CONGRESS

- p0186** **Analysis of heart rate variation after electrical stimulation of the insula during SEEG**
Alvaro Sanchez Larsen (Spain)
- p0187** **Correlation between hypnagogic hypersynchrony variants and speech development delay in children**
Nikolai Titov (Russia)
- p0188** **Modified automatic R-peak detection algorithm for patients with epilepsy using a portable electrocardiogram recorder: first step of portable seizure detection**
Jesper Jeppesen (Denmark)
- p0189** **The impact of the EEG findings on the strategy of treatment in children with ADHD**
Ilya Zaytsev (Russia)
- p0190** **Tracking heart rate changes during seizures: a national study using ResearchKit and Apple Watch to collect biosensor and response data during seizures**
Yaretson Ivan Carmenate (USA)

Comorbidities 1

- p0191** **Epilepsy and sleep (case presentation)**
Gina Doinita Vanghelie (Romania)
- p0192** **Neurofibromatosis type I and epilepsy in Aydin province**
Ali Akyol (Turkey)
- p0193** **Effect of embelin in chronic epilepsy induced cognitive dysfunction in three-axis maze model of adult zebrafish**
Uday Praful Kundap (Malaysia)
- p0194** **Long term mortality risk of people with epilepsy who underwent seizure monitoring**
Shishir Duble (India)
- p0195** **Sleep disorders in epilepsy**
Anna Voitiuk (Ukraine)

www.epilepsybarcelona2017.org

POSTERS

- p0196** **Bone metabolism serum markers in adult patients with epilepsy: effect of vitamin D supplementation on seizures control**
Mario Tombini (Italy)
- p0197** **Association between bone mineral density and use of antiepileptic drugs**
Sarah Seberg Diemar (Denmark)
- p0198** **Epilepsy treatment in patients with comorbid anxiety and depression: ethical, clinical and social aspects**
Ekaterina P. Mikhailovska-Karlova (Russia)
- p0199** **High prevalence of intellectual disability, autism, ADHD and diminished adaptive functioning in Doose syndrome (MAE)**
Shan Tang (United Kingdom)
- p0200** **Facial emotion perception in people with epilepsy: a systematic review with meta-analysis**
Suncica Lah (Australia)

Drug Therapy 1

- p0201** **The actual mechanism by which phenytoin displays Michaelis-Menten kinetics**
Pietro Fagiolino (Uruguay)
- p0202** **Efficacy, safety and tolerability of lacosamide in adults with LGS in the clinical setting**
René Andrade-Machado (Colombia)
- p0203** **Adverse events are the main reason for non-adherence to pharmacological treatment of epilepsy in Brazil**
Heloise Helena Siqueira (Brazil)
- p0204** **Severe apnea in newborns exposed to lamotrigine in utero, two case reports**
Tahir Yoldas (Turkey)
- p0205** **Early experience of perampanel in treatment for patients with epilepsy and potential in getting seizure freedom for medically refractory epilepsy**
Takamichi Yamamoto (Japan)

- p0206** **Use pattern and adverse drug reaction profile of newer and conventional antiepileptic drugs in a tertiary care hospital**
Sudhir Chandra Sarangi (India)
- p0207** **Perception on cognitive side effects of antiepileptic drugs among epilepsy patients**
Mohd Makmor Bakry (Malaysia)
- p0208** **Epileptic spasms and tonic seizures in children with tuberous sclerosis complex: a new indication for vigabatrin?**
Emma Annemarie van der Poest Clement (USA)
- p0209** **Beneficial effect of add-on perampanel on GTCS in patients with Lafora disease**
Iosif Volkov (Russia)
- p0210** **The evolution of polytherapy in the treatment of epilepsy**
Frank Vajda (Australia)
-

Drug Therapy 2

- p0211** **Effect of levatirecetam monotherapy on complete blood count, immunoglobulin levels and lymphocyte subsets in children and adolescents with epilepsy**
Ilknur Erol (Turkey)
- p0212** **Modelling covariates which influence lamotrigine pharmacokinetics in paediatric patients**
Janet Mifsud (Malta)
- p0213** **Pharmacokinetics of lamotrigine as adjunctive therapy in Japanese adult patients with epilepsy**
Masako Kinoshita (Japan)
- p0214** **Systematic review of adjunctive pharmacotherapies for primary generalized tonic-clonic seizures**
David Gomez-Ulloa (Spain)
- p0215** **Behavioural changes using the novel anticonvulsant, perampanel**
Yunju Choi (Korea, Republic of)

POSTERS

- p0216** **Characteristics of antiepileptic drugs prescription in women of reproductive age with epilepsy in Croatia**
Ana Piršić (Croatia)
- p0217** **Antiepileptic drug withdrawal for terminal remission in patients with epilepsy in the general population**
Giorgia Giussani (Italy)
- p0218** **Eating epilepsy in North India: clinical, electrophysiological, imaging profile and report of efficacy of clobazam in its management**
Atma Ram Bansal (India)
- p0219** **Twenty months of experience with perampanel in patients with temporal lobe epilepsy with and without hippocampal sclerosis**
Angelo Labate (Italy)
- p0220** **Control of refractory post-hypoxic multifocal myoclonus with Levetiracetam, report of one case**
Surena Nazarbaghi (Iran, Islamic Republic of)

Drug Therapy 3

- p0221** **Clinical experience of using perampanel in the pharmacotherapy of focal epilepsies**
Irina Zhidkova (Russia)
- p0222** **Use of Cannabidiol (RSHO) in the treatment of refractory epilepsy (Lennox-Gastaut syndrome), experience of 38 cases**
Saul Jesus Garza Morales (Mexico)
- p0223** **A herbal-drug pharmacokinetic interaction study between Paullinia cupana extract and lamotrigine in the rat**
Sandra Ventura (Portugal)
- p0225** **Effect of antiepileptic drugs on bone mineral density in paediatric epilepsy patients**
Geon Ju Kim (Korea, Republic of)

32ND INTERNATIONAL EPILEPSY CONGRESS

- p0226** **Analysis of the outcomes of pregnancy in women with epilepsy exposed to eslicarbazepine acetate**
Raquel Costa (Portugal)
- p0227** **Tolerability of antiepileptic drugs**
Bshra Ali Alsouk (United Kingdom)
- p0228** **Potential of baicalin, (-)-epigallocatechin gallate, kaempferol, quercetin and silymarin, and their dual combinations in reversing the P-glycoprotein-mediated antiepileptic drug resistance**
Ana Filipa Ferreira (Portugal)
- p0229** **HPLC-DAD method for determination of zonisamide in human plasma using microextraction by packed sorbent optimized by Plackett-Burman experimental design**
Márcio Rodrigues (Portugal)
- p0230** **Evaluation of perampanel in patients with intellectual disability and epilepsy**
Francesca Monica Snoeijs-Schouwenaars (Netherlands)

Drug Therapy 4

- p0231** **Perampanel is potent against malignant migrating partial seizures of infancy: a case report**
Naoko Ishihara (Japan)
- p0232** **Perampanel as add-on in patients with brain tumour-related epilepsy: a preliminary report**
Marta Maschio (Italy)
- p0233** **Lacosamide in patients with brain tumour related epilepsy: effect on seizure control and quality of life**
Marta Maschio (Italy)
- p0234** **An observational, post-marketing study of adjunctive brivaracetam in patients with focal seizures in Europe: interim analysis of 6-month data**
Bernhard J. Steinhoff (Germany)

POSTERS

- p0235** **Adjunctive brivaracetam in patients with secondarily generalized tonic-clonic seizures at baseline: pooled results from long-term follow-up studies**
Brian D. Moseley (USA)
- p0236** **Banishing Valproic acid during pregnancy: always rewarding? Seizure frequency and antiepileptic drug treatment during pregnancy and delivery in women with epilepsy – a retrospective single centre study**
Boris Shihman (Israel)
- p0237** **Therapeutic drug monitoring for perampanel in Japanese patients with epilepsy**
Yoshiaki Yamamoto (Japan)
- p0238** **Treatment with cannabidiol (CBD) significantly reduces drop seizure frequency in Lennox-Gastaut syndrome (LGS): results of a multi-centre, randomised, double-blind, placebo-controlled trial (GWPCARE4)**
Maria Mazurkiewicz-Beldzinska (Poland)
- p0239** **Outcomes of perampanel therapy in patients with symptomatic epilepsy against a background of glial brain tumours**
Alexandr Shershever (Russia)
- p0240** **Cannabidiol (CBD) in Dravet syndrome: a randomised, dose-ranging pharmacokinetics and safety trial (GWPCARE1)**
Stephen Wright (United Kingdom)
- p0241** **A novel HPLC-DAD method for simultaneous quantification of levetiracetam, zonisamide, lamotrigine, pentylenetetrazole and pilocarpine in rat plasma and brain samples**
Márcio Rodrigues (Portugal)

Epidemiology 1

- p0242** **Predictors of discharge destination following hospitalization by seizure**
Takeshi Satow (Japan)
- p0243** **Epidemiology in preclinical emergency care in epilepsy – validation of prehospital epilepsy emergency score (PEES)**
Tobias Michael Kniess (Germany)

32ND INTERNATIONAL EPILEPSY CONGRESS

- p0244** **Serotonin reuptake inhibitor use and mortality in epilepsy: findings from a contemporary linked electronic health records cohort study**
Colin Josephson (Canada)
- p0245** **Situation of the EEG in a developing country: Egypt**
Karim Tawfik (Egypt)
- p0246** **The use of antiepileptic drugs in patients with epilepsy in the Kharkiv region of Ukraine according to the developed electronic registry**
Andriy Dubenko (Ukraine)
- p0247** **Prevalence of juvenile myoclonic epilepsy in people < 30 years of age – a populationb-based study in Norway**
Marte Syvertsen (Norway)
- p0248** **Antiepileptic drugs-induced hyponatremia: review and analysis of 560 patients**
Bernhard J. Steinhoff (Germany)
- p0249** **Value of regional electronic epileptic patients' registry for monitoring epidemiology of paediatric population in Kharkiv region of Ukraine**
Andriy Dubenko (Ukraine)
- p0250** **Neurologist and patients satisfaction with epilepsy diagnosis in the epilepsy follow-up clinic through synchronous telemedicine. A tool to get out of the shadows in Colombia**
Jean Paul Vergara Aguilar (Colombia)
- p0251** **Breakthrough seizures – further analysis of the Standard versus New Antiepileptic Drugs (SANAD) study**
Laura Bonnett (United Kingdom)
-

Epidemiology 2

- p0252** **Epidemiology of seizures in the emergency department**
Vanesa Roig (Argentina)
- p0253** **A national profile of neurodevelopmental disabilities in Canadian children: data from the National Longitudinal Study of Children and Youth**
Asuri Prasad (Canada)

www.epilepsybarcelona2017.org

POSTERS

- p0254** **Incidence of acute symptomatic and unprovoked seizures, epilepsies and epilepsy syndromes in a cohort of children accessing government primary schools and organization of seizures and epilepsies using ILAE 2010 system: a study in South India**
Shyam K Jaiswal, Telangana (India)
- p0255** **Epidemiological clinical profile of hospitalized patients at Hospital Metropolitano Centro de Epilepsia in Quito Ecuador**
Patricio Abad (Ecuador)
- p0256** **Incidence of sudden unexpected death in epilepsy in community-based cohort in China**
Ding Ding (China)
- p0257** **Prevalence, treatment gap and misconceptions about epilepsy among general population in Ecuador**
Jaime Luna (France)
- p0258** **Generalized convulsive status epilepticus in adults according to hospital intensive care units in Moscow for the year**
Vladimir A. Karlov (Russia)
- p0259** **Paediatric neurology workforce in Saudi Arabia**
Mohammed Jan (KSA)
- p0261** **Prevalence and clinical characteristic of childhood-onset frontal lobe epilepsy in Algiers**
Walid Abdellaoui (Algeria)

Epilepsy in severely resource-restricted settings 1

- p0262** **Differential role of sodium channels in epilepsy syndromes**
Musadiq Ahmad Bhat (India)
- p0263** **Drug and substance abuse in refractory epilepsy**
Raafat Abdeldayem (Egypt)
- p0264** **Epilepsy surgery perceptions and knowledge in Colombia**
Lady Diana Ladino (Colombia)

32ND INTERNATIONAL EPILEPSY CONGRESS

- p0265** **Neurocysticercosis: a preventable cause of epilepsy in sub-Saharan Africa**
Athanas Millogo (Burkina Faso)
- p0266** **Post-traumatic seizures in a rural Nigerian neurosurgical service**
Taophee Rabi (Nigeria)
- p0267** **The role of trained community health volunteer in improving adherence in children with epilepsy in rural Kenya**
Edwin Maraga (Kenya)
- p0268** **Posterior reversible encephalopathy syndrome in acute childhood leukemia**
In Goo Lee (Korea, Republic of)
- p0269** **Clinical features of seizures in HIV patients with toxoplasma encephalitis**
Annick Melanie Magnerou- (Senegal)
- p0270** **Reducing the epilepsy treatment gap in rural Nepal using epilepsy field workers and telephone telemedicine**
Prakash Paudel (Nepal)
- p0271** **Quality of carbamazepine in resource-limited settings: ancillary results from the QUAEDaf (Quality of Antiepileptic Drugs in sub-Saharan Africa) study**
Jeremy Jost (France)
- p0272** **A screening questionnaire for convulsive seizures: a three-stage field-validation in rural Bolivia**
Loretta Giuliano (Italy)
- p0273** **Sickle cell disease revealed by seizures and ischemic stroke: about two cases**
Olivier Mukuku (DR Congo)

Epilepsy Surgery 1

- p0274** **History of surgery for temporal lobe epilepsy**
Ali Asadi-Pooya (Iran, Islamic Republic of)
- p0275** **Focal cortical dysplasia: seizure freedom and impact on quality of life after surgery**
Jitender Chaturvedi (India)

POSTERS

- p0276** **Surgical outcomes in two different age groups sharing Focal Cortical Dysplasia type II: any real difference?**
Jorge Luis Ramirez Molina (Colombia)
- p0279** **Epilepsy surgery in patients with genetic refractory epilepsy: a systematic review**
Maurits W.C.B. Sanders (Netherlands)
- p0280** **Comparison in outcomes of dominant vs non-dominant temporal lobectomy for epilepsy**
Catherine Pringle (United Kingdom)
- p0281** **Long-term adjustment following epilepsy surgery: the impact of maintaining epilepsy as a part of identity**
Honor Coleman (Australia)
- p0282** **Presurgical evaluation and seizure outcome in MRI-negative intractable neocortical epilepsy**
Koji Iida (Japan)

Epilepsy Surgery 2

- p0283** **Coping capacity and quality of life in patients with drug-resistant epilepsy undergoing temporal lobectomy**
Marilyn Zaldívar (Cuba)
- p0284** **Integration of high density electroencephalogram source modelling in non-lesional refractory epilepsy for pre-surgical planning**
Victor Gonzalez Montoya (USA)
- p0285** **Diagnostic and outcome after surgical treatment of temporal epilepsy in children**
Konstantin Abramov (Russia)
- p0286** **Difficulties of pre-surgical epilepsy diagnostic in a case of focal cortical dysplasia type IIIa**
Ana Miron (Romania)
- p0287** **Surgical treatment of drug-resistant epilepsies**
Igor Trifonov (Russia)

32ND INTERNATIONAL EPILEPSY CONGRESS

- p0288** **Indirect revascularization surgery in children with symptomatic epilepsy**
William Khachatryan (Russia)
- p0289** **Seizure-onset mapping based on time-variant multivariate functional connectivity analysis of high-dimensional intracranial EEG**
Octavian V Lie (USA)
- p0290** **Anterior corpus callosotomy in adult patients with MRI-negative frontal lobe epilepsy**
Go Seyama (Japan)
- p0291** **Long-term invasive monitoring versus intraoperative corticography: diagnostic efficacy in symptomatic epilepsy**
Nastasia Arkhipova (Russia)
- p0292** **Temporal lobe encephaloceles: a surgically treatable cause of drug resistant epilepsy**
Melissa Maguire (United Kingdom)

Epilepsy Surgery 3

- p0293** **Missed opportunities in the surgical management of refractory focal epilepsy: the role of magnetoencephalography**
Ismail Mohamed (USA)
- p0294** **Outcome after corpus callosotomy in children with intractable epilepsy**
Magomed Mamatkhanov (Russia)
- p0295** **Effectiveness of transcranial motor evoked potential monitoring during the surgical treatment of mesial temporal lobe epilepsy**
Won Gu Lee (Korea, Republic of)
- p0296** **Outcome and prognostic factors of epilepsy surgery in children with focal cortical dysplasia**
Sun Ah Choi (Korea, Republic of)
- p0297** **Clinical outcomes of five patients implanted with a cardiac-based Vagus Nerve Stimulator (VNS)**
Andrea Landi (Italy)

POSTERS

- p0298** **Pre-surgical features and outcomes in children with focal cortical dysplasia**
Nicola Pietrafusa (Italy)
- p0299** **Evaluation the results of vagal nerve stimulation in patients with drug resistant epilepsy**
Fulya Eren (Turkey)
- p0300** **Meaningful cognitive decline after mesial temporal lobe epilepsy surgery in Brazilian patients**
Katia Lin (Brazil)
- p0301** **Predictive surface Video EEG characteristics of epilepsy surgery good outcomes**
Victoria Fernandez (Spain)
-

Genetics 1

- p0304** **The genetic characteristics of epileptic encephalopathy in children**
Dildora Aminova (Uzbekistan)
- p0305** **Adjustment of focal epileptic seizures treatment depending on SCN1a genotyping-preliminary results**
Anna Siatouni (Greece)
- p0306** **Early-onset epilepsy and severe cognitive impairment in six patients with the de novo p.Glu590Lys variant of CUX2**
Gaetan Lesca (France)
- p0307** **Less destructive and intronic SCN1A mutations are associated with partial epilepsy with antecedent febrile seizures**
Lu Yu (China)
- p0308** **Ion channel gene and epilepsy: functional alteration, pathogenic potential and mechanism of epilepsy**
Feng Wei (China)
- p0309** **Determining the burden of copy number variation in patients with epilepsy**
Tânia K. de Araujo (Brazil)

- p0944** **Premature mortality in persons with epilepsy and schizophrenia: a nationwide cohort study**
Katrine Maul Andersen (Denmark)
- p0945** **The impact of geography on epilepsy mortality: a retrospective case series from 4 U.S. medical examiner offices**
Esma Cihan (USA)

POSTERS

- p0946** **Epidemiology of drug-resistant temporal lobe (TLE) epilepsy in Uzbekistan**
Azamatjon Umarov (Uzbekistan)
- p0947** **Paternal age and risk of epilepsy in the offspring**
Jakob Christensen (Denmark)
- p0948** **Temporal epilepsy: electro-clinical aspects in a Senegalese cohort**
Ousmane Cisse (Senegal)
- p0949** **Tuberous sclerosis complex: the first epidemiological study in Brazil**
Maria Luiza Giraldes Manreza (Brazil)
-

Epilepsy in the elderly

- p0950** **Epilepsy in the elderly people**
Rohayeh Esmaeili (Iran, Islamic Republic of)
- p0951** **Experiences of elderly epilepsy patients in emergency care**
Thomas Porschen (Germany)
- p0952** **New generation antiepileptic drugs (AEDs) are under-used among elderly patients: a cross sectional study**
Richard Shek-Kwan Chang (Hong Kong)
- p0953** **Clinical features of epilepsy in 10 patients on hemodialysis**
Kunihiko Araki (Japan)
- p0954** **Association of alpha subunit of GABAA receptor subtype gene polymorphism with epilepsy syndromes in Indian population**
Sameer Ahmad Guru (India)
- p0955** **Non-convulsive status epilepticus-cause or the consequence of cardiogenic event?**
Renata Sušak (Croatia)
- p0956** **A study of symptomatic epilepsy related to ischemic stroke**
Kei-Ichiro Takase (Japan)
- p0957** **Clinical and etiological profile of epilepsy in elderly**
Zeineb Brahem (Tunisia)

32ND INTERNATIONAL EPILEPSY CONGRESS

- p0958** **Differentiation and modulation for both epilepsy and dementia in elderly people**
Takahiro Mitsueda-Ono (Japan)
- p0959** **Efficacy and safety of intravenous lacosamide in focal status epilepticus in elderly and critically ill patients**
Elisabetta Venturelli (Italy)
- p0960** **Perampanel use in older people with epilepsy: pooled data from European observational studies**
Caroline Neuray (Austria)
-

Epilepsy Surgery 7

- p0961** **The role of vascularization of the corpus callosum during microsurgical callosotomy in patients with severe symptomatic epilepsy**
Valery Cheburakhin (Ukraine)
- p0962** **Negative motor phenomena in focal epilepsy: a SEEG study**
Luca De Palma (Italy)
- p0963** **Our experience of surgical treatment of multifocal epilepsy**
Kostiantyn Kostyuk (Ukraine)
- p0964** **Hemispherotomy for the treatment of refractory epilepsy, in adults and children**
Heidy Baide Mairena (Spain)
- p0965** **Atypical presentation of Rasmussen's encephalitis: a case series**
Gabriela Reyes Valenzuela (Argentina)
- p0966** **Utility of depth electrodes for epilepsy surgery and surgical outcome**
Kyoung Jin Hwang (Korea, Republic of)
- p0967** **Mild malformation of cortical development with oligodendroglial hyperplasia in frontal lobe epilepsy: clinical and management approach of a new entity**
Angel Aledo-Serrano (Spain)
- p0968** **Tuber centre-only resections for seizure control in tuberous sclerosis**
A. Simon Harvey (Australia)

POSTERS

- p0969** **Mapping hyperexcitable neural network connections in extra-temporal lobes in the human brain in patients with epilepsy**
Rabia Warraich (United Kingdom)
-

Epilepsy Surgery 8

- p0970** **Prolonged reversible neurological dysfunction in neurosurgical patients**
Seo-Young Lee (Korea, Republic of)
- p0971** **Anterior temporal lobe encephalocele as the etiology of pharamcoresistant epilepsy and hippocampal kindling: case illustration and literature review**
Raidah Al-Baradie (KSA)
- p0972** **Modified subpial “en bloc” resection for amygdalo- hippocampectomy to avoid complications in temporal lobe surgery**
Karl Roessler (Germany)
- p0973** **Seizure freedom after corpus callosotomy**
Bassel Abou-Khalil (USA)
- p0974** **Seizure outcome of patients with magnetic resonance imaging-negative epilepsies: still an ongoing debate**
Cihan Isler (Turkey)
- p0975** **The impact of dominant temporal lobe arachnoid cyst surgical treatment on epilepsy control, cognition and visual field**
Monica Alexander (KSA)
- p0976** **Robotic stereoelectroencephalography without head-frame and computed tomography – analysis of accuracy**
Thomas Freiman (Germany)
- p0977** **Testing quality indicators for adult epilepsy monitoring unit in the Centre for Treatment of Refractory Epilepsy (CETER), a new epilepsy monitoring unit in Brazil**
Marino Muxfeldt Bianchin (Brazil)

32ND INTERNATIONAL EPILEPSY CONGRESS

- p0978** **Good outcome of resective epilepsy surgery in patients with non-lesional focal epilepsy after invasive evaluation with stereotactically implanted depth electrodes**
Christian Vollmar (Germany)
- p0979** **Hemispheric disconnection in paediatric patients with refractory epilepsy secondary to diffuse, unilateral disease. Long term results in a tertiary centre**
Sara Patricia Pérez-Reyes (Mexico)
- p0980** **The effectiveness of transcranial motor evoked potential monitoring during epilepsy surgery in patients with medically refractory temporal lobe seizures**
Dae-Won Seo (Korea, Republic of)
- p0981** **Post-operative infections secondary to invasive electrode monitoring and epilepsy surgery in paediatric population**
Ying Meng (Canada)

Genetics 4

- p0982** **Different gain-of-function effects in SCN2A-mutations**
Stephan Lauxmann (Germany)
- p0983** **Developmental regression preceding seizure onset: a guide for SLC6A1 mutation testing in children with atypical myoclonic astatic epilepsy**
Micheal Taylor (United Kingdom)
- p0984** **Epilepsy and sleep disorders improve in adolescents and adults with Angelman syndrome: a multicentre study of 46 patients**
Chiara Sueri (Italy)
- p0985** **Discovery and pathogenicity assessment of neuropathology-associated gene variants**
Lisa-Marie Neupert (Germany)
- p0986** **Novel mutations in SLC2A1 gene: phenotype variability of GLUT1 deficiency syndrome in a small case series**
Lidia Di Vito (Italy)

POSTERS

- p0987** **Down-regulation of ADGRV1 gene expression in the inferior colliculus of the genetic audiogenic seizure-prone hamster GASH: Sal**
Dalia Alvarez-Morujó de Sande (Spain)
- p0988** **Audiogenic seizures induce changes in the gene expression in the inferior colliculus of two animal models of epilepsy, the WAR and GASH: Sal strains**
Dolores E. López (Spain)
- p0989** **DNA methylation of the BRD2 promoter is associated with juvenile myoclonic epilepsy etiology**
Shilpa Pathak (USA)
- p0990** **CN1A gene mutations and adaptive functioning assay in Vietnamese children with Dravet syndrome**
Chi Bao Bui (Vietnam)
- p0991** **A heterozygous MBD5 frameshift mutation in a family with mental retardation and epilepsy**
Ji Yoon Han (Korea, Republic of)

Genetics 5

- p0992** **Investigation of GLUT-1 mutation in patients with genetic generalized epilepsy presenting with eyelid myoclonia**
Güneş Altıokka-Uzun (Turkey)
- p0993** **Genetic heterogeneity of sleep related hypermotor epilepsy (SHE)**
Francesca Bisulli (Italy)
- p0994** **First case report on West syndrome with a de novo KCNQ3 mutation**
Kazuyuki Nakamura (Japan)
- p0995** **Targeted next generation sequencing as a diagnostic tool in 644 childhood epilepsy patients and transmission of variants from mosaic parents**
Line H. G. Larsen (Denmark)
- p0996** **Homozygous mutation identified in glutamate acid channel Gene GRIN3A in a pedigree with myoclonic epilepsy**
Jing Ye (China)

32ND INTERNATIONAL EPILEPSY CONGRESS

- p0997** **Genetic aspects of erythrocyte and leukocyte (HLA) antigens systems in the induction and evolution of neurocysticercosis and epilepsy due to neurocysticercosis**
Nadejda Gorincioi (Moldova, Republic of)
- p0998** **Recessive variants in VARS cause a clinical syndrome with severe developmental delay, epilepsy and microcephaly**
Aleksandra Siekierska (Belgium)
- p0999** **Novel mutation on SYNGAP1 gene as probable etiology of Ohtahara syndrome epileptic encephalopathy**
Jose Mesa (Chile)
- p1000** **Genetic causes of paediatric epileptic encephalopathy: a retrospective chart review**
Biswaroop Chakrabarty (India)
- p1001** **Dependence of the indicators of cognitive potential of P300 to the forms of epilepsy**
Maruf Salokhiddinov (Uzbekistan)
- p1002** **Distribution of genetic epilepsies and accordingly adjusted medical treatment at the Danish Epilepsy Centre: a systematic analysis of children born between 2006 and 2011**
Christina Dühring Fenger (Denmark)
-

Neuroimaging 5

- p1003** **Widespread white matter alterations predict refractoriness in mild temporal lobe epileptic patients**
Maria Eugenia Caligiuri (Italy)
- p1004** **Epilepsy and developmental brain malformation**
Zeineb Braham (Tunisia)
- p1005** **MRI T2-hyperintensive lesions in TSC children treated with vigabatrin**
Krzysztof Sadowski (Poland)

POSTERS

- p1006** **Reliability of pre-surgical brain MRI protocols in epileptogenic lesion detection: the tertiary epilepsy centre experience**
Nikola Vojvodic (Serbia)
- p1007** **Tract-based spatial statistics of diffusion tensor imaging after corpus callosotomy in relation to seizure recurrence**
Da Eun Jung (Korea, Republic of)
- p1008** **Epileptic network in action: synchrony of intracranial spiking activity in distant interictal discharge-related hemodynamic responses revealed by EEG/fMRI**
Hui Ming Khoo (Canada)
- p1009** **Spatial congruence of integrated EEG-fMRI networks in temporal lobe epilepsy**
P Satishchandra (India)
- p1010** **Interictal Granger's causality synchronization in EEG, maps congruent BOLD changes in posterior quadrant epilepsy: a simultaneous EEG fMRI study**
P Satishchandra (India)

Neuroimaging 6

- p1011** **Sv2a protein levels in the kainic acid epilepsy rat model during the acute phase**
Maria Elisa Serrano Navacerrada (Belgium)
- p1012** **Neuropsychologic and metabolic changes in patients with left mesial temporal lobe epilepsy with hippocampal sclerosis after epilepsy surgery**
Canan Güvenç (Belgium)
- p1014** **Aiding surgical planning in epilepsy by applying dynamical approaches in conjunction with brain imaging**
Nishant Sinha (United Kingdom)
- p1015** **Automated epilepsy diagnosis and seizure focus lateralization based on deep learning**
Boris Bernhardt (Canada)

32ND INTERNATIONAL EPILEPSY CONGRESS

- p1016** **Whole-brain structural connectome disruptions in temporal lobe epilepsy: relation to hippocampal pathology**
Boris Bernhardt (Canada)
- p1017** **Directed functional connectivity in patients with focal epilepsy using low-density EEG**
Ana Coito (Switzerland)
- p1018** **Mapping the verbal semantic memory network before anterior temporal lobectomy using a combination of rTMS and fMRI**
Moksh Sethi (Australia)
- p1019** **Quantification of blood brain barrier impairment as biomarker of epileptogenesis**
David Kala (Czech Republic)
- p1020** **Developing an fMRI localizer task that can identify functional temporoparietal regions associated with episodic memory in individual participants**
Marc Hendriks (Netherlands)
-

Neuroimaging 7

- p1021** **Brain surface mapping of objectively defined glucose metabolic abnormalities before two-stage epilepsy surgery in children above 1 year of age**
Csaba Juhasz (USA)
- p1022** **The use of fMRI for predicting post-operative memory decline in temporal lobe epilepsy**
Baris Metin (Turkey)
- p1023** **Poorly controlled seizures disrupt resting state networks in patients with generalized epilepsies**
Clarissa Yasuda (Brazil)
- p1024** **Automated hippocampal volumetry profiles along the anterior-posterior axis for hippocampal sclerosis detection**
Sjoerd B. Vos (United Kingdom)

POSTERS

- p1025** **Aberrant functional connectivity patterns of the default mode network in TLE-HS patients with anti-NMDAR antibodies**
Nancy Watanabe (Brazil)
- p1026** **Altered brain networks in patients with psychogenic non-epileptic seizures in ultra-high field MRI**
Brittney Castrillin(Canada)
- p1027** **Spatio-temporal characterization of neuronal activity in a zebrafish model of epileptic seizures**
Teresa Gonçalves Martins (Luxembourg)
- p1028** **Diffusion-weighted imaging in the baboon model of genetic generalized epilepsy**
Felipe Salinas (USA)
- p1029** **Temporal lobe epilepsy: qualitative reading of 1H MR spectroscopic images for pre-surgical evaluation in Uzbekistan**
Jasurjon Fokhirov (Uzbekistan)
- p1030** **Reliability of the diagnosis of heterotopia in patients with pharmacoresistant epilepsies**
Dragoslav Sokic (Serbia)

Neuropsychology 4

- p1031** **Social cognition impairment In Benign childhood epilepsy with centrotemporal spikes**
Kette Dualibi Ramos Valente (Brazil)
- p1032** **Post-traumatic epilepsy impact on cognitive and behavioural disorders in veterans of Afghan war and other local armed conflicts in Kyrgyz Republic with traumatic brain injury**
Cholpon Shambetova (Kyrgyzstan)
- p1033** **Psychological symptoms in patients with epilepsy**
Eleftheria Siarava (Greece)

32ND INTERNATIONAL EPILEPSY CONGRESS

- p1034** **Risk factors for neuropsychological impairment in benign epilepsy with centrottemporal spikes**
Issa Almashmoom (KSA)
- p1035** **Development and validation of ictal cognitive testing and localization (ICTAL): an individualised hypothesis-testing tablet based neuropsychological test program to evaluate cognitive deficits during ictal EEG abnormalities, Wada-testing, intracranial EEG recordings and awake surgery**
Marc Hendriks (Netherlands)
- p1036** **Psychomotor development of patients with KCNQ2 epileptic Encephalopathy**
Ilaria Tondo (Italy)
- p1037** **Bilateral temporal lobe epilepsy versus unilateral temporal lobe epilepsy: do they have distinct neuropsychological profiles?**
Martina Da Rold (Italy)
- p1038** **An Indian extension of the radiosurgery or open surgery for epilepsy Trial (ROSE): a longitudinal study on the neuropsychological outcomes**
Ashima Nehra (India)
- p1039** **Cognitive outcomes following radiofrequency-thermocoagulation in temporal lobe epilepsy (TLE): preliminary data**
Carmen Pérez-Enríquez (Spain)
- p1040** **Lacosamide may preserve or improve cognition in epileptic patients: EpiTrack to compare cognition between lacosamide and carbamazepine**
Natalia Manfredi (Italy)
- p1041** **Autobiographical memory in temporal lobe epilepsy: comparison between pre- and post-surgical assessment**
Claudia Múnera Martínez (Argentina)
-

POSTERS

Neurostimulation 3

- p1042** **Intrathalamic high-frequency EEG can predict deep brain stimulation efficacy in epilepsy**
Petr Klimes (Czech Republic)
- p1043** **Efficacy of vagus nerve stimulation as a treatment for medically intractable epilepsy patients: preliminary results**
Kezban Aslan (Turkey)
- p1044** **Diurnal variation of potential ictal onsets detected by a responsive neurostimulation device**
Paul Van Ness (USA)
- p1045** **Clinical outcomes of VNS- aspire SR in patients with refractory epilepsy in Sheba Medical Centre (Israel)**
Michal Tzadok (Israel)
- p1046** **Ventral anterior cingulate gyrus: integration of body position and complex motor responses**
Maria Centeno (United Kingdom)
- p1047** **Cerebellar transcranial Direct Current Stimulation (tDCS) in drug-resistant epilepsy: preliminary results from 10 patients**
Alessia Mingarelli (Italy)
- p1048** **Vagal nerve stimulation for drug-resistant epilepsy: efficacy and adverse events in Epilepsy Centre of University Hospital Bratislava (Slovakia), with long-term follow-up**
Gabriela Timárová (Slovakia)
- p1049** **Selective deep brain stimulation in the substantia nigra in progressive myoclonic epilepsy**
Lukas Imbach (Switzerland)
- p1050** **VNS, ICD and pacemaker: a safety challenge in 5 years old child with long QT syndrome and drug resistant epilepsy**
Marco Perulli (Italy)
- p1051** **Melancholics ordinarily become epileptics, and epileptics, melancholics: what determines the preference is the direction the malady takes**
Andrei Vlaicu (France)

Paediatric Epileptology 12

- p1052** **Sleep disorders in children and adolescents with epilepsy: an observational study**
Francesca Furia (Italy)
- p1053** **Predicting factors and outcome of PCDH19-related epilepsy: a multicentre study of 61 Italian patients**
Marina Trivisano (Italy)
- p1054** **Late-onset epileptic spasms in congenital hyperinsulinism by mutation in ABCC8 gene**
Gemma Aznar-Lain (Spain)
- p1056** **Dietary treatment of children with epilepsy: simple interventions lead to a near threefold increase in retention rate**
Kathrine C. Haavardsholm (Norway)
- p1057** **Paradoxical ictal EEG lateralization in children with hemiplegic cerebral palsy with refractory epilepsy**
Munni Ray (United Kingdom)
- p1058** **Epilepsia partialis continua and Gliomatosis cerebri: a rare association**
Giulia Prato (Italy)
- p1059** **Interleukin-1beta and tumour necrosis factor-alpha in children with febrile seizures**
Dina Salama Abd Elmagid (Egypt)
- p1060** **Profile of epileptic seizures of adolescence according to operational classification of seizure types by the international league against epilepsy**
Carmen Silvia Molleis Galego Miziara (Brazil)
-

POSTERS

Paediatric Epileptology 13

- p1061** **Reliability and validity 'impact of paediatric epilepsy scale' of Turkish version in children with epilepsy**
Müberra Tanriverdi (Turkey)
- p1062** **Comparison clinical characteristics of influenza associated febrile convulsion and febrile convulsions without influenza in children**
Sung Koo Kim (Korea, Republic of)
- p1063** **A case of Rasmussen encephalitis with positive anti-GAD antibodies treated with rituximab**
Osama Muthaffar (KSA)
- p1064** **Electroclinical features of epilepsy in three female patients with KIAA2022 mutation**
Hiroko Ikeda (Japan)
- p1065** **Characteristics of polymicrogyria-related epilepsy**
Ara Ko (Korea, Republic of)
- p1066** **Efficacy, acceptability and tolerability of low glycemic index diet in South Indian children with refractory epilepsy**
Nivedita Pavithran (India)
- p1067** **A questionnaire-based study on effect of different antiepileptic drugs (AEDs) relative to sleep problems in children with genetic epilepsy in Georgia**
Sofia Kasradze (Georgia)
- p1068** **Significance of functional connectivity before and after corpus callosotomy or hemispherotomy in paediatric epilepsy patients**
Ara Ko (Korea, Republic of)
- p1069** **Epilepsy in children with tuberous sclerosis complex: Ljubljana University Children's hospital experience**
Jasna Oražem Mrak (Slovenia)
- p1070** **A new computer based algorithm for calculating ketogenic parenteral nutrition in childhood epileptic encephalopathies**
Anastasia Dressler (Austria)

- p1071** **Drug utilization patterns in children with refractory epilepsy at a tertiary referral center in Serbia**
Natasa Cerovac (Serbia)

Paediatric Epileptology 14

- p1072** **Long-term seizure and developmental outcome in surgical cases of infantile epileptic encephalopathies**
Kenji Sugai (Japan)
- p1073** **Intraoperative in vivo thermography in safety control of the electrical stimulation mapping**
Radek Janca (Czech Republic)
- p1074** **Autoimmune epilepsy in children: identification and management strategies**
Sheffali Gulati (India)
- p1075** **Association between LQT syndrome and epilepsy in a family with KCNQ1 variant**
Sema Saltik (Turkey)
- p1076** **Ketogenic diet service – spectrum of referred cases according to age**
Carmen Sandu (Romania)
- p1077** **Adverse effects of antiepileptic drugs reported by caregivers as a surrogate marker of quality of life and mental health in children with epilepsy**
Laura Guilhoto (Brazil)
- p1078** **Occipital intermittent rhythmic delta activity (OIRDA) in children**
Anna Winczewska-Wiktor (Poland)
- p1079** **The clinical and electroencephalographic spectrum of ESES (Encephalopathy with status epilepticus in sleep) in Indian children**
Biswaroop Chakrabarty (India)
- p1080** **Deletion of the SHANK3 gene and epilepsy: about 5 cases**
Nicole Chemaly (France)
- p1081** **Acute encephalopathy in a child with Dravet syndrome**
Sofia Quintas (Portugal)

POSTERS

Paediatric Epileptology 15

- p1082** **Lysine restriction in pyridoxine dependent epilepsy; results after 2 years of follow-up**
Hans Hartmann (Germany)
- p1083** **Starting antiepileptic medications by non-specialists: what are the hazards?**
Noha Tharwat (Egypt)
- p1084** **Features of epilepsy and cerebral palsy in children in Uzbekistan**
Dilshod Tolibov (Uzbekistan)
- p1085** **Early onset epileptic encephalopathy caused by SCN2A and SPTAN1 mutations**
Ana Boban Raguž (Bosnia and Herzegovina)
- p1086** **Steroid therapy in West syndrome-case-series analysis**
Ilona Kopyta (Poland)
- p1087** **Treatment of epilepsy of infancy with migrating focal seizures associated with a novel CDKL5 mutation with potassium bromide**
Olca Ünver (Turkey)
- p1088** **The prevalence of autistic spectrum disorder in children with epilepsy**
Lamia Sfaihi (Tunisia)
- p1089** **Pathogenic variants in KCTD7 perturb neuronal K⁺ fluxes and glutamine transport**
Hebatallah El Khashab (Egypt)
- p1090** **Juvenile myoclonic epilepsy in Morocco: experience of Marrakesh third level hospital**
Mustapha Chaqda (Morocco)
- p1091** **Pilotage study of cannabinoids (THC and CBD) as add-on therapy in children with refractory epilepsy**
Agata Ulatowska (Poland)
-

Paediatric Epileptology 16

- p1092** **Malformations of cortical development and epilepsy: about 20 cases**
Lamia Sfaihi (Tunisia)
- p1093** **Neurological complications following pertussis vaccination**
Sergio Antoniuk (Brazil)
- p1094** **Treatment and outcome of West syndrome: about 22 cases**
Lamia Sfaihi (Tunisia)
- p1095** **Auto-immune anti-N-methyl-D-aspartate receptor (anti-NMDAR) encephalitis: three case reports**
Hebatallah El Khashab (Egypt)
- p1096** **West syndrome: clinical characteristics, treatment and outcome**
Evelyn Lora (Dominican Republic)
- p1097** **Treatment approaches in pharmaco-resistant childhood epilepsies**
Oksana Globa (Russia)
- p1098** **Updates to the Lafora Epilepsy Cure Initiative (LECI) clinical centre: development of a data collection tool for measurement of Lafora Epilepsy Disease Progression**
Viet-Huong Nguyen (USA)
- p1099** **Mathematical modelling of melatonin diurnal secretion in children with epilepsy**
Justyna Paprocka (Poland)
- p1100** **Angelman syndrome – mathematical modelling of melatonin secretion**
Justyna Paprocka (Poland)
- p1101** **Behavioural problems and psychosocial functioning in adolescents with epilepsy**
Madhu Nayak (India)
-

POSTERS

SUNDAY 3rd SEPTEMBER

Adult Epileptology 1

- p0091** **Association between environmental ozone levels and increased epileptic seizures in patients with epilepsy in a hospital in Mexico City**
Victor Gomez-Arias (Mexico)
- p0092** **A case of N-methyl-D-aspartate receptor antibodies associated autoimmune temporal lobe epilepsy with amygdala enlargement**
Go Taniguchi (Japan)
- p0093** **Portosystemic shunt: an important differential diagnosis of consciousness disturbance in middle age**
Shunsuke Kajikawa (Japan)
- p0094** **Predictors of outcome in patients with acute symptomatic seizure**
Gopal Krishna Dash (India)
- p0095** **Headaches associated with symptomatic epilepsy in adults**
Sanja Atic (Serbia)
- p0096** **Temporal lobe epilepsy with amygdala enlargement: a clinical study**
Masanaka Takeda (Japan)
- p0097** **Epilepsy and neuropsychiatric lupus: case report and literature review**
Guadalupe Bonilla Mejia (Ecuador)
- p0098** **Clinical characteristics of epileptic seizures associated with protein S deficiency**
Masako Kinoshita (Japan)
- p0099** **Musicogenic epilepsy – an autoimmune-mediated condition?**
Anke Maren Staack (Germany)
- p0100** **Factors affecting the number of oligodendrocytes in human temporal lobe epilepsy: a clinicopathological study**
Hajime Miyata (Japan)

DOWNLOAD THE FREE 32nd IEC APP

Download the FREE 32nd International Epilepsy Congress App now to access congress information at the touch of a button

Key App features:

- Scientific Programme
- Session Details
- Abstracts
- General Information
- Exhibition Information
- and many more...

Search: 32nd IEC Barcelona 2017

Download the App for iPhone, iPad, Android Phone/Tablet, Kindle Fire or Windows Phone. There is FREE wifi available during the congress for all registered delegates

OTHER INFORMATION

SPEAKERS LIST

Surname	Firstname	Country	Role	Date	Start Time	End Time	Session Type
Alarcon	Gonzalo	Qatar	Speaker	04/09/2017	15:30	17:00	Parallel
Andrzejak	Ralph	Spain	Speaker	06/09/2017	09:30	11:30	Main
Arzimanoglou	Alexis	France	Speaker	04/09/2017	12:00	13:30	Parallel
Arzimanoglou	Alexis	France	Speaker	06/09/2017	08:00	09:00	Teaching Programme
Arzimanoglou	Alexis	France	Speaker	05/09/2017	17:00	18:00	ATE
Arzimanoglou	Alexis	France	Chair	05/09/2017	15:00	15:30	Awards Symposium
Arzimanoglou	Alexis	France	Speaker	03/09/2017	16:30	18:00	Satellite Symposium
Asadi-Pooya	Ali	Iran	Speaker	03/09/2017	12:00	13:30	Parallel
Asadi-Pooya	Ali	Iran	Chair	03/09/2017	12:00	13:30	Parallel
Auvin	Stéphane	France	Speaker	02/09/2017	17:00	18:30	Parallel
Auvin	Stéphane	France	Chair	02/09/2017	17:00	18:30	Parallel
Bach Justesen	Anders	Denmark	Technician	04/09/2017	08:00	09:30	Teaching Programme
Bach Justesen	Anders	Denmark	Technician	05/09/2017	08:00	09:30	Teaching Programme
Baulac	Michel	France	Chair	04/09/2017	15:30	16:30	Platform
Baumgartner	Christoph	Austria	Speaker	04/09/2017	12:00	13:30	Parallel
Beniczky	Sandor	Denmark	Speaker	02/09/2017	13:00	14:30	Teaching Programme
Beniczky	Sandor	Denmark	Speaker	03/09/2017	08:00	09:30	Teaching Programme
Beniczky	Sandor	Denmark	Speaker	04/09/2017	08:00	09:30	Teaching Programme
Beniczky	Sandor	Denmark	Speaker	05/09/2017	08:00	09:30	Teaching Programme
Ben-Zeev	Bruria	Israel	Speaker	05/09/2017	12:00	13:30	Parallel
Berkovic	Sam	Australia	Speaker	03/09/2017	17:00	18:00	Video Series
Bernard	Chrisophe	France	Speaker	02/09/2017	17:00	18:30	Parallel
Bernard	Christophe	France	Chair	02/09/2017	17:00	18:30	Parallel
Bertram	Ed	USA	Chair	05/09/2017	15:30	16:30	Platform
Bhathal	Hari	Spain	Speaker	05/09/2017	12:00	13:30	Parallel
Bhathal	Hari	Spain	Chair	05/09/2017	09:30	11:30	Main
Bhathal	Hari	Spain	Chair	02/09/2017	15:30	17:00	Satellite Symposium
Birbeck	Gretchen	Zambia	Speaker	03/09/2017	12:00	13:30	Parallel
Birbeck	Gretchen	Zambia	Speaker	05/09/2017	08:00	09:30	Teaching Programme

32ND INTERNATIONAL EPILEPSY CONGRESS

Birbeck	Gretchen	Zambia	Chair	03/09/2017	12:00	13:30	Parallel
Blumenfeld	Hal	USA	Speaker	05/09/2017	12:00	13:30	Parallel
Bonhila	Leonardo	USA	Speaker	02/09/2017	17:00	18:30	Parallel
Boon	Paul	Belgium	Chair	03/09/2017	08:00	09:30	Satellite Symposium
Brambilla	Isabella	Italy	Speaker	02/09/2017	15:30	17:00	Satellite Symposium
Brandt	Christian	Germany	Speaker	04/09/2017	08:00	09:30	Teaching Programme
Brodie	Martin	United Kingdom	Speaker	02/09/2017	13:00	14:30	Teaching Programme
Burneo	Jorge	Canada	Chair	04/09/2017	15:30	16:30	Platform
Canuet Delis	Leonides	Spain	Speaker	03/09/2017	08:00	09:30	Satellite Symposium
Caraballo	Roberto	Argentina	Speaker	03/09/2017	12:00	13:30	Parallel

Improve patient wellbeing with VNS Therapy®

- ✓ Fewer Seizures
- ✓ Shorter Seizures
- ✓ Faster Recovery
- ✓ Decreased Seizure Severity

- ✓ Fewer Medications
- ✓ Improved Alertness, Mood and Memory
- ✓ Improved Quality of Life

VNS THERAPY EUROPEAN INDICATION FOR USE VNS Therapy is indicated for use as an adjunctive therapy in reducing the frequency of seizures in patients whose epileptic disorder is dominated by partial seizures (with or without secondary generalization) or generalized seizures that are refractory to seizure medications. The Model 106 AspireSR® (Seizure Response) features the Automatic Stimulation Mode, which is intended for patients who experience seizures that are associated with cardiac rhythm increases known as ictal tachycardia.

CONTRAINDICATIONS: The VNS Therapy system cannot be used in patients after a bilateral or left cervical vagotomy. Do not use short-wave diathermy, microwave diathermy, or therapeutic ultrasound diathermy on patients implanted with the VNS Therapy system. Diagnostic ultrasound is not included in this contraindication. Cardiac arrhythmia (Model 106 only)—The AutoStim Mode feature should not be used in patients with clinically meaningful arrhythmias or who are using treatments that interfere with normal intrinsic heart rate responses.

WARNINGS: Physicians should inform patients about all potential risks and adverse events discussed in the VNS Therapy Physician Manuals, including information that VNS Therapy may not be a cure for epilepsy. Since seizures may occur unexpectedly, patients should consult with a physician before engaging in unsupervised activities, such as driving, swimming, and bathing, or in strenuous sports that could harm them or others. A malfunction of the VNS Therapy system could cause painful or direct current stimulation, which could result in nerve damage. Removal or replacement of the VNS Therapy system requires an additional

surgical procedure. Patients who have pre-existing swallowing, cardiac, or respiratory difficulties (including, but not limited to, obstructive sleep apnea and chronic pulmonary disease) should discuss with their physicians whether VNS Therapy is appropriate for them since there is the possibility that stimulation might worsen their condition. Postoperative bradycardia can occur among patients with certain underlying cardiac arrhythmias. MRI can be safely performed; however, special equipment and procedures must be used.

ADVERSE EVENTS: The most commonly reported side effects from stimulation include hoarseness (voice alteration), paresthesia (prickling feeling in the skin), dyspnea (shortness of breath), sore throat and increased coughing. The most commonly reported side effect from the implant procedure is infection.

*The information contained here represents partial excerpts of important prescribing information from the product labeling. Patients should discuss the risks and benefits of VNS Therapy with their healthcare provider. Visit www.VNSTherapy.com for more information.
