Dear Friends, I had the privilege of being born in a developing country, have vast experience in the field of Epilepsy, associated with various Epilepsy Organizations in India for last 30 years. I have worked in various organizational and administrative positions at international level (Asian Oceanian region, ILAE and IBE) for more than 20 years. I had been a grass root worker and understand the needs of education of physicians at various levels in developing countries as well as at global level. I wish to make a humble request for your kind support. I am a committed worker and assure you that I will further work hard to significantly enhance the educational activities if elected to Management Committee member of ILAE. Shall always be available for ILAE related activities.

Yours Sincerely,

Man Mohan Mehndiratta
