Hurghada Winter School on EEG and Epilepsy

Welcome Message

Dear Friends and Colleagues,

It is the great pleasure to invite you to attend the Elgouna Winter School on EEG and Epilepsy, jointly organized by the commission on East Mediterranean Affairs (CEMA) and International League Against Epilepsy (ILAE).

The educational program has been designed to cover up the basic EEG and epilepsy fundamentals. The program consists of presentations by keynote speakers and case presentations by tutors and participants. The main objective is to allow the participating neurologists ample time for discussion and interaction with the speakers.

This winter school is a great opportunity for our region to disseminate information about epilepsy and to build up a generation of epileptologists who will improve the care of people with epilepsy.

Course Directors
