(CRSSCE-IX)**

New vision on Diagnosis, Treatment and Care of Epilepsy

11th -13th October , 2019

Tbilisi, Georgia

Program

		October 10	
Hotel lobby	From 15:00	Registration	
DAY 1		October 11	
	08:00–08:15	Breakfast	
		Opening Ceremony	S. Kasradze- Chair- President/GLAE M.Bialer- Co-Chair N. Tatishvili-Co-Chair
Room	Time	Lecture	Speaker
A	08:15 - 09:00	1. Epidemiology of the epilepsies	S. Kasradze
	09:00 – 09:45	2. The 2017 ILAE classification of epilepsies and seizures	N. Tatishvili
	09:45 -10:30	3. Neuroimaging studies in epilepsy –different modalities	M. Koepp
	10:30-10:45	Coffee Break	
Room	Time	Lecture	Speaker
A	10:45-11:30	1. The pharmacological treatment of epilepsy: General principles	E. Perucca
	11:30 – 12:15	2. Basic principles of pharmacokinetics (PK) of AEDs and drug-drug interactions	M. Bialer
	12.15:13:00	3. Different devices for the management of epilepsy	M. Koepp
	13:00-14:00	Lunch	
Room	Time	Lecture	
A	14:00 – 14:45	1. Treatment strategies of drug-resistant epilepsies in pediatric populations	N. Tatishvili
	14:45-15:30	2. New antiepileptic drugs (AEDs) in development or recently approved including cannabinoids	M. Bialer
	15:30 -16:15		

		3. Critical interpretation of AED trials	E. Perucca
Room	16:30-17:30	Group work	Tutor
A		Drug interactions with AEDs	M. Bialer
B		Genetic testing in pediatric epilepsy	N. Specchio
C		Movement disorders in neonates	L. Fusco
Room			
A	17:30-18:30	Case studies	
	19:00	Dinner	
DAY 2		October 12	
	08:00–09:00	Breakfast	
Room	Time	Lecture	Speaker
A	09:00-09:45	1. Difficulties on applying the classification of epilepsy and seizures in pediatric patients.	N. Specchio
	09:45-10:30	2. Epileptic encephalopathies and treatment strategies	F. Vigevano
	10:30 -11:15	3. Pediatric epilepsy surgery	B. Sukhudyen
	11:15-12:00	Video session – seizures	
	12:00-12:15	Coffee Break	
Room	12:15-13:30	Group work Tutored case-oriented studies	Tutor
A		Video-EEG investigations in differentiating severe early onset epilepsies	L. Fusco
B		MRI and fMRI in adults	M. Koepp
C		EEG – Video EEG	N. Okujava
	14:00-15:00	Lunch	
	15:00-16:30	Lecture	Speaker
A		1 Genetics of severe epilepsies	N. Specchio
		2 Cognitive dysfunction in epilepsy	T. Gagoshidze
		3 Psychiatric comorbidities in pediatric epilepsies	K. Salayev
	16:30-16:45	Coffee Break	
	16:45-18:15	Group work Tutored case-oriented studies	Tutor
A		Video-EEG in pediatric epilepsy	L. Fusco
B		Alternative treatment in paediatric epilepsy.	N. Specchio
C		Neuroimaging in epilepsy (adults)	M. Koepp
	19:00	Social Program with Dinner	
DAY 3		October 13	
	08:00–09:00	Breakfast	

Room	Time	Lecture	Speaker
A	09:00-09:45	1. Global burden of epilepsy and social issues	N. Okujava
	09:45 – 10:30	2. Impact of the Georgian State program on “Prevention and early diagnosis of epilepsy”– 15 years experience	S. Kasradze
	10:30 – 11:15	3. Epilepsy advocacy Initiatives in the world	E. Perucca
Room	Time	Case studies	Tutor
A	11:15-12:30	EEG pediatric case studies (two – by tutors, three by students)	L. Fusco
B		Case studies on seizure semiology in adults (two – by tutors, three by students)	N. Egizariyan
C		Case studies - on seizure semiology in children (two – by tutors, three by students)	K. Salaiyev
	12:00	Closing Ceremony	
	14:00	Departure
