

*2nd ANS AfriCAN International
Conference*

Sept 21st to 23rd, 2023

*Safari Park Hotel,
Nairobi*

INTERIM PROGRAMME

Theme: The future of Neurophysiology and Epilepsy in Africa

Day 1: The challenges of neurophysiology practice in Africa

Session 1: History of neurophysiology; Chaired by Isiaka Amoo

1. History of clinical neurophysiologyBankole Murtala, Nigeria
2. Development of EEG Practice standards.....Solomon Yarangi, Kenya
3. Living with epilepsy in Africa.....KAWE Rep

Session 2: EEG recording and analysis, Chaired by Geoffrey Wanyonyi

4. The EEG Procedure.....Margaret Woki, Kenya
5. Quality features of an EEG record.....Isiaka Amoo, Nigeria
6. EEG analysis and philosophy of an EEG report.....Shem Ochieng, Kenya

Session 3: EEG phenomena in different phases of life Chaired by Shem Ochieng,

7. EEG Phenomena in infancy.....Sabrina Galloway, USA
8. EEG Phenomena in children, adult and elderly.....Dr. Moses Kibuuka,
Uganda/UK

Day 2: The way forward in diagnosis and management of seizures and epilepsy in Africa

Session 4: Seizures and epilepsies, Chaired by Daniel Teguo

9. Non epileptic seizure disorders.....Dr Sutapa Biswas, UK/India
10. Classification of epilepsies.....Prof Alfred Njamnshi,
Cameroon
11. Epilepsy syndromes and their EEG correlates.....Dr Yvonne Nyakeri, Kenya

Session 5, Clinical use of EEG, Chaired by Peter Muthinji

12. Clinical use of EEG in epilepsy.....Ibrahim Ambuche, Kenya
13. Clinical use of EEG in cerebral pathologies other than epilepsy.....Dr Abena Osei-lah
UK/Ghana
14. Normal Variants in the Electroencephalogram.....Cecilia Kamundia, Kenya

Session 6, Adding value to routine EEG, Chaired by Josephine Karimi

- 15. Epileptic discharges in various physiological states.....Lucien Kilonda, USA/Nigeria
- 16. Polygraphy and expanded montages in EEG recordings.....Dr Peter Muthinji, Kenya

Day 3: Advanced Neurophysiology Practice

Session 7: Advanced EEG practice, Chaired by Eric Kariuki

- 17. Video-EEG Telemetry.....Dr Jules F Nshimiyimana, Rwanda/Kenya
- 18. Overview of Epilepsy surgery.....Dr Danille McDermott, USA

Session 8: Chaired by Lucien Kilonda

- 19. EMG and NCS.....Edwin Onyoni, Kenya
- 20. EP and IONM.....Joshua Laari, Cameroon

Session 9: Society Matters, jointly chaired by Peter Muthinji & Bankole Murtala

INTERIM TIME TABLE

Theme: The future of Neurophysiology and Epilepsy in Africa

Day 1 Sub-theme: The challenges of neurophysiology practice in Africa

Sessions	Time	Topic	Speaker
	0800-0830	Registration	
One	1. History of neurophysiology: From science to clinical practice Session Chair: Isiaka Amoo		
	08.30-0900	1. History of clinical neurophysiology	Bankole
	0900-0930	2. Development of EEG Practice standards	Solomon Yarangiro
	0930-1000	3. Living with epilepsy in Africa	Kawe Rep
	1000-1030	QA/Comments	
	1030-1100	Tea Break	
Two	2. Session: EEG Recording and analysis Session Chair: Geoffrey Wanyonyi		
	1100-1130	4. The EEG Procedure	Margaret Woki
	1130-1200	5. Quality features of an EEG record	Isiaka Amoo
	1200-12.30	6. EEG analysis and philosophy of an EEG report	Shem Ochieng
	1230-1300	Comments /QA	

	1300-1400	Lunch	
Three	3. Session: EEG Phenomena in different phases of life Session Chair: Shem Ochieng		
	1430-1500	7.EEG Phenomena in infancy	Sabrina Galloway
	1500-1530	8. EEG Phenomena in children, adult and elderly	Moses Kibuuka
	1530-1600	Comments/ QA	
	1600-16.30	Tea break	
		Social/subcommittee meetings etc.	

Day 2 Sub-theme: The way forward in diagnosis and management of seizures and epilepsy in Africa

Sessions	Time	Topic	Speaker
	0800-0830	Registration	
Four	4. Session: Seizures and epilepsies Session Chair: Teguo Daniel		
	08.30-0900	9. Non epileptic seizure disorders	Sutapa Biswas
	0900-0930	10. Classification of epilepsies	Alfred Njamnshi
	0930-1000	11. Epilepsy syndromes and their EEG correlates	Yvonne Nyakeri
	1000-1030	QA/Comments	
	1030-1100	Tea Break	
Five	5. Session: Clinical Use of EEG Chair: Peter Muthinji		
	1100-1130	12. Clinical use of EEG in epilepsy	Ibrahim Ambuche
	1130-1200	13. Clinical use of EEG in cerebral pathologies other than epilepsy	Abena Osei-Lah
	1200-12.30	14. Normal Variants in the Electroencephalogram	Cecilia Kamundia
	1230-1300	Comments /QA	
	1300-1400	Lunch	
Six	6. Session: Adding value to routine EEG Session Chair: Josphine Karimi		

	1430-1500	15. Epileptic discharges in various physiological states	Lucien Kilonda
	1500-1530	16. Polygraphy and expanded montages in EEG recordings	Peter Muthinji
	1530-1600	Comments/ QA	
	16:00-16:30	Tea break	
		social /subcommittee meetings etc.	

Day 3 Sub-theme: advanced neurophysiology practices

Sessions	Time	Topic	Speaker
	0800-0830	Registration	
Seven	7. Session: Advanced EEG practice Session Chair: Eric Kariuki		
	0900-0930	17. Video-EEG Telemetry	Jules Nshimiyimana
	0930-1000	18. Overview of Epilepsy surgery	Danille McDermott
	1000-1030	QA/Comments	
	1030-1100	Tea Break	
Eight	8. Session: Neurophysiology aspects, other than EEG Session Chair: Lucien Kilonda		
	1100-1130	19. EMG and NCS	Edwin Onyoni
	1130-1200	20. EP and IONM	Joshua Laari
	1200-12.30	Comments /QA	
Nine	12.30-13.30	9. Session: Society matters Moderators: Peter Muthinji & Bankole Murtala	All
Afternoon: Visit to Nairobi National Park
