

Lifetime Achievement

The Lifetime Achievement Award is the ultimate award, given to those truly exceptional persons, internationally acclaimed and with a long record of exemplary work. Only when an individual is deemed to adequately reflect the criteria required for consideration will this award be presented. Candidates are nominated and selected by the members of the Joint Executive Committees of the IBE and the ILAE.

The prize consists of two silver candlesticks engraved with the recipient's name and the names of IBE and ILAE. The recipient also receives a financial award of US\$5,000 and is invited to attend the International Epilepsy Congress to be presented with their award.

Year	First Name	Last Name	Title	Country
