

ILAE Visting Scholarship - Call for Applicants

The ILAE Career Development Commission and its Fellowships Task Force are launching a new visiting scholarship scheme to support clinical and academic professionals with an interest in epilepsy during the first stages of their career.

We aim to support early-career academic and clinical professionals planning to acquire a new skill and to expand their professional network by undertaking a professional visit to a suitable host institution.

The scheme is further aimed at increasing international exchange of expertise and skills with mutual benefit.

It will first launch in Europe and is planned to be extended to other ILAE Regions in due course.

What we offer

- Financial support of up to 5000 € towards living and travel expenses for a visiting period of up to 3 months
- Additional financial support for successful applicants with caring responsibility
- Creation of a network of early-career academic and clinical fellows to provide peer-support that desirably lasts beyond the duration of the scholarship.

Eligibility criteria

- based in ILAE Europe
- still in training or not have finished his or her training (medical specialty, PhD) more than 5 years ago
- Application documents need to be completed and sent to fellowship@ilae.org by the 31st May 2022

Interested? Apply today!

Go to <https://www.ilae.org/research/funding-opportunities> to download all necessary application forms and send them back to us on fellowship@ilae.org by 31/05/2022. Don't hesitate to contact us beforehand in case of further questions.
