

STESS – 7-9 April Gothenburg, Wallenberg conference center, Sahlgrenska Academy, University of Gothenburg

| | Wednesday 7/4 | Thursday 8/4 | Friday 9/4 |
|-------------|--|---|---|
| 8.30-10.00 | Training course Brigo/Zelano | Symposium Biomarkers Johan Zelano, chair, Detecting detrimental trajectories. Silvia Bozzetti Fluid biomarkers in status epilepticus Kai Schubert, Multimodal data for prognostication in stroke, tumors and traumatic brain injury | Symposium Treatment Can we improve outcomes in status epilepticus in symptomatic epilepsy, Leena Kemppe, chair Patient-related outcomes in symptomatic epilepsies, TBA Time to control, Should we treat seizures faster? Erik Tauboll |
| | Coffee / posters | Coffee / posters | Coffee / posters |
| 10.00-11.30 | Training course Brigo/Zelano | Symposium Epileptogenesis Where now with antiepileptogenesis in symptomatic epilepsies? TBA, chair Genetics in symptomatic epilepsies, Pierro Perrucca DNA methylation in epileptogenesis, Kjell Hauser | Workshop – develop collaborations (pre-registration) - SELECT - Biomarkers - Clinical trials |
| 11.30 | | Platform 3 x 10 min talk | Platform 3x 10 |
| 12 | Lunch | Lunch | Boxed Lunch |
| 13 | Welcome! Johan Zelano Francesco Brigo | Sponsored symposium? | |
| 13.30-15.00 | Symposium Recent advances Francesco Brigo, chair, Machine-learning in epilepsy The SeLECT score and beyond: from prognosis to antiepileptogenesis, Marian Galovic New drugs – what to use and when? Simona Lattanzi | Symposium Preclinical-clinical Seizure control, prognosis and neuropathological clues in dementia-associated epilepsy, Ifrah Zavar, chair Human cortical organoids, can they inform clinical epilepsy research? TBA Personalised virtual brain models in epilepsy, Viktor Jirsa | Departure |
| | Coffee-posters | Coffee | |
| 15.30-16.00 | Skills lab (three rooms, pre-registration, workshop for research group members wanting to learn more about certain methods) - Clinical trials (TBA) - Systematic reviews (Brigo) - Emulated trials in open data (Schubert) | Symposium Vascular Vascular risk factor management in epilepsy, Emelie Johnson, chair. Epilepsy after ICH – specific pathophysiological and management consideration, Rob Rouhl The LOSTIT-study of vascular risk assessment after first seizures, David Larsson | |
| 16.30 | Platform 3x10 min | Platform | |
| | | | |

Symposia = 3 x 20 min talks and 30 minute discussions with speakers and audience moderated by the chair. Also posters.
