Foreword.....	IX
List of workshop participants and authors affiliations.....	XIII
Senior Lecture <i>Carl Dodrill</i> .....	1
<b>Section I:</b> <b>Neuropsychological assessment: state of the field at present</b>	
Inquiry on assessments across epilepsy centers in different countries <i>Jelena Djordjevic</i> .....	13
A survey on neuropsychological practice in German-speaking epilepsy centers <i>Juri-Alexander Witt, Christoph Helmstaedter</i> .....	27
Standards and developmental aspects in the neuropsychological evaluation of children <i>Paola Brovedani, Daniela Brizzolara</i> .....	33
Developing epilepsy-specific international cognitive assessment: Approaches, opportunities and limitations <i>Nerissa S.P. Ho, Tatia M.C. Lee</i> .....	47
Discussion <i>Melissa Filippini</i> .....	57
Neuropsychology and the Epilepsy Common Data Elements Project <i>David W. Loring, Bruce P. Hermann</i> .....	59

**Section II:****Use of neuropsychology to understand the impact of epilepsy and seizures on cognition and the natural history of neurobehavioral problems**

Transient cognitive impairment: impact of interictal epileptiform discharges on neuropsychological functioning and implications for clinical care and research <i>Phillip S. Fastenau</i> .....	69
Preictal, ictal and postictal cognition <i>Christian Hoppe</i> .....	93
Cognition in new onset childhood epilepsies <i>Bruce Hermann, Jana Jones, Michael Seidenberg</i> .....	121
Cognition in new-onset adult epilepsies <i>Joanne Taylor, Gus A Baker</i> .....	131

**Section III:****Use of neuropsychology to understand pharmacological treatments**

Neurocognitive effects of antiepileptic drugs frequently used in long term treatment of the epilepsies: a review <i>Henric Jokeit, Ilan Oppenheim, Béatrice Brunner, Victoria Reed, Günter Krämer</i> .....	141
Discussion <i>Pam Thompson</i> .....	161
Assessing cognitive antiepileptic drug effects in the individual patient <i>Juri-Alexander Witt, Christoph Helmstaedter</i> .....	163
Neurodevelopmental impact of antiepileptic drugs <i>Kimford J. Meador</i> .....	179

**Section IV:****Use of neuropsychology to understand surgical treatments**

Presurgical diagnostics <i>Michael M. Saling, Sarah J. Wilson</i> .....	191
Discussion <i>Arne Gramstad</i> .....	199

Cognitive outcomes of different surgical approaches in temporal lobe epilepsy <i>Christoph Helmstaedter</i> .....	201
Neuropsychological outcomes of extratemporal surgery <i>Robyn M. Busch</i> .....	223
Pediatric epilepsy surgery: neuropsychological outcomes and measurement issues <i>Mary Lou Smith, Suncica Lah, Irene M. Elliott</i> .....	239
<b>Section V:</b> <b>Mood and cognitive impairment in epilepsy</b>	
Depression, anxiety, and cognition in epilepsy: clinical and neurobiological considerations <i>Frank G. Gilliam, Brenda Albertson, Michael Driscoll</i> .....	251
Discussion <i>Sarah J. Wilson</i> .....	259
Theory of mind in epilepsy patients and implications for behavior <i>Anna Rita Giovagnoli</i> .....	263
Autistic spectrum disorder and attention deficit hyperactivity disorder in childhood epilepsy <i>David W. Dunn, William G. Kronenberger, Elisabeth M.S. Sherman</i> .....	273
<b>Section VI:</b> <b>Assessing cognition in epilepsy via electrophysiological and functional imaging techniques</b>	
The role of functional MRI and the Wada test in determining language dominance patterns and mental reserve capacities in epilepsy surgery candidates <i>Sallie Baxendale</i> .....	287
Discussion <i>Arne Gramstad</i> .....	297
Functional transcranial Doppler sonography for the reliable assessment of language dominance in adults and children with epilepsy <i>Hubertus Lohmann</i> .....	299

Localizing cognitive functions in epilepsy with intracranial gamma-band dynamic responses <i>Juan R. Vidal, Carlos M. Hamame, Karim Jerbi, Sarang S. Dalal, Carolina Ciumas, Marcela Perrone-Bertolotti, Tomas Ossandon, Lorella Minotti, Philippe Kahane, Jean-Philippe Lachaux</i> .....	309
Electrophysiological monitoring techniques of cognitive functions in epilepsy: event-related potentials and fields, nonlinear dynamics, and network theory <i>Klaus Lehnertz</i> .....	321
Functional near infrared spectroscopy for the assessment of language dominance and lateralization of epileptic foci <i>Anne Gallagher, Renée Béland, Maryse Lassonde</i> .....	331
