

**Dear Committee Members,**

I hereby wish to formally express my interest in applying for the Latin American Committee of the International League Against Epilepsy (ILAE). This candidacy represents an opportunity for me to actively contribute to the regional development of epileptology and to offer the committee my clinical, academic, and leadership experience in the field of neurology and epilepsy in Latin America.

I am a neurologist trained at the Clinical Hospital of the University of Chile, and I currently practice at Clínica Las Condes, Clínica MEDS, and CENEA, with a particular focus on neurophysiology and epilepsy. I actively participate in the Advanced Epilepsy Center at Clínica Las Condes alongside Dr. Manuel Campos. In recent years, I have held leadership positions in the Chilean Epileptology Society including serving as president from March 2023 to March 2025, after having previously been vice president and treasurer. This experience has allowed me to gain in-depth insight into local and regional needs regarding the diagnosis, treatment, and public policy on epilepsy.

I have participated as a speaker, educator, and organizer in numerous international and Latin American congresses and symposiums, such as the International Symposium of LiChE and the Winter Epilepsy Sessions in Chile, among others. I have also contributed to research, with publications in the fields of epilepsy, clinical neurophysiology, and neuroimmunology, reflecting my commitment to advancing scientific knowledge and applying it to clinical practice.

I firmly believe that networking among Latin American countries is essential to improving the quality of diagnosis, treatment, and social understanding of epilepsy. My intention in joining the Latin American Committee of the ILAE is to strengthen these connections, promote continued education in epileptology, and support inclusive initiatives that consider the diverse contexts of our region.

I thank you in advance for considering my candidacy and remain available for any additional information you may require.

Sincerely,

**Dr. Pablo Felipe González Rodríguez**

Neurologist – Clínica Las Condes | Clínica MEDS | CENEA

Past President, Chilean League Against Epilepsy
