

Dear members of ILAE Asian Oceanian,

I am honored to be nominated as a committee member of the ILAE Asia-Oceanian region. As a clinician and researcher in epilepsy based in Korea, I am deeply committed to advancing epilepsy care both locally and across the region. I hope to represent Korea with dedication and continue contributing to the important projects of ILAE-AO.

Having participated in training physicians from countries such as Mozambique, Ghana, Laos, and Cambodia in epilepsy and sleep medicine, I have witnessed the global disparities in access to specialized care. While advanced research and up-to-date practices are well established in developed countries, many regions still face urgent needs for structured training, essential facilities, and consistent medication access.

My experiences have broadened my perspective and strengthened my commitment to promoting equity in epilepsy care. I hope to support ILAE-AO's mission by helping bridge these gaps and working toward more equal patient care across the Asia-Oceanian region.

Sincerely,

Pamela Song, M.D.

Associate Professor of Neurology

Department of Neurology, Inje University Ilsan-Paik Hospital

Chair of International Relations, Korean Epilepsy Society
